| Total Board Approved Budget by FY (1)        | $39,093| $190,565| $44,555| $217,036| $526,752| $67,348|

Some of the major projects in progress or completed include, but are not limited to the following:

**Currently in Progress**
- 25th Avenue Grade Separation Project
- CBOSS/PTC Project
- Caltrain Right of Way Fencing Project
- Grade Crossing Improvement Projects
- Los Gatos Bridge Replacement Project
- New Control Point at Brittan Project
- Rail Grinding Project
- Right of Way Fencing Program
- San Francisco Bridge Replacement Project
- South San Francisco Station Improvements Project
- Systemwide Signal Rehabilitation Project
- Systemwide Station Rehabilitation Project
- Systemwide Track Rehabilitation Project

**Completed Projects**
- Jerrold Avenue Bridge Replacement Project
- Narrow Banding Project
- Quint Street Bridge Project
- Rail Operation Control System (ROCS) Project
- Real Time Transit Information Project - Predictive Arrival/Departure System (PADS)
- San Bruno Grade Separation Project
- San Mateo Bridges Rehabilitation Project
- South Terminal and Santa Clara Stations Improvements Project
- Wayside Power at Diridon Station Project

Note: (1) The "Total Board Approved Budget by FY" reflects the annual fiscal year capital budget approved by the Caltrain Board. This authorizes the amount that can be spent on projects. Unspent budget in a fiscal year may be carried forward to subsequent budget years.
This page is intentionally left blank.
TRAFFIC LIGHT REPORT

The following projects represent a sub-set of the total Capital Program and have been selected for inclusion into the Quarterly Report due to project value, operational significance, and/or impact on customers.

### CBOSS PTC Project

<table>
<thead>
<tr>
<th>SCOPE</th>
<th>SCHEDULE</th>
<th>BUDGET / COST</th>
<th>HSR IMPACT</th>
</tr>
</thead>
<tbody>
<tr>
<td>G</td>
<td>R</td>
<td>R</td>
<td>N/A</td>
</tr>
</tbody>
</table>

**SCOPE:**

This project includes design of a Communications Based Overlay Signal System Positive Train Control (CBOSS PTC), which will improve rail safety, provide enhanced operational benefits for passenger rail service, and fulfill federally mandated positive train control safety improvements along the Caltrain/California High Speed Train (CAHST) San Francisco to San Jose corridor.

The CBOSS PTC Project is implemented in four phases:
- **Phase 1** - Project Administrative Planning, Preliminary Design and Critical Design of CBOSS PTC system.
- **Phase 2** with fiber optic backbone - Activities including acceptance of CBOSS PTC Final Design and the Factory Acceptance Test, as well as installation of the data communications subsystem including fiber optic backbone.
- **Phase 3** with fiber optic backbone - Activities including all remaining CBOSS PTC subsystem installation, all sub-system and system testing, training, safety certification, completion of the BCCF, commissioning and system acceptance, and one year warranty.

The Prime contractor, PTG, was terminated by the JPB on Feb 22, 2017. Since then, the JPB has been in the process of re-procuring services to ensure the successful completion of the CBOSS PTC project. The JPB has been pursuing the re-procurement of these services through a phased approach. The first phase involves two short-term contracts, with long-term contracts to follow.

**Issues:**

On May 16, 2017, JPB entered into a 120-day short-term contract with Alstom, in an effort to ensure progress continued on key Alstom scope items while long-term scope and contract documents were developed. This Alstom short-term contract focuses on onboard software and database development. The current work on this contract will be completed in November 2017.

As of July 6th, the JPB approved to a short-term contract with Rockwell Collins (ARINC). This contract focuses on an assessment of the CBOSS system as it was left by the terminated contractor. ARINC has undertaken a two-step process for the integration work, beginning with an evaluation of the current state of the project in order to be able to identify how best to implement the scope needed to complete the project successfully. The draft assessment was delivered to the JPB in September and was discussed in detail during a two-day workshop with ARINC. ARINC has also submitted a proposal and schedule for completion of the project as the system integrator as the second step of the process. These steps will be key in completing the scope of work required by a new project integrator.

In parallel with these short-term contracts, JPB is developing Scopes of Work and commercial terms that will support a multi-contract structure for the completion of the project. These Scopes and commercial terms will be shared with potential candidates for the work as the documents are completed.

JPB is targeting to have all long-term contracts in place by winter of 2017 to support the goal of Revenue Service Demonstration (RSD) by December 2018 for Caltrain territory. PTC operations on Union Pacific Railroad (UPRR) territory will be implemented per the agreement between JPB and UPRR.

Once long-term contracts are in place, the project re-baseline schedule that reflect each contractor's commitment will be finalized and published.

**SCHEDULE:**

*Project schedule will be updated once evaluation of delivery of remaining project work is complete.*
Progress:
This Period: Jul - Sep 2017

1) The Prime Contractor (Parsons) was terminated as of February 22, 2017.
2) Began oversight of contract with Rockwell Collins to provide status assessment of PTC system.
3) Continued oversight of 120-day contract with Alstom, with a focus on onboard software development.
4) Developed Scopes of Work for completion of the project.

Future Activities:
Oct - Dec 2017
1. Continue to review information and documentation provided by PTG as part of transition due to contract termination.
2. Continue monitoring, evaluation and support of the implementation of the federated links and MTA 04 regional design completed in late January 2017.
3. Continue to provide oversight for Alstom short-term Scope of Work.
4. Perform Cyber Security Assessment of ROCS and CBOSS systems.
5. Update scope(s) of work as necessary for completion of the project.
6. Complete PTC Field Assessment being performed by ARINC (Rockwell Collins).

Issues:
Re-Procurement effort is required to complete the project due to PTG termination.

BUDGET:

<table>

</tr>
</tbody>
</table>

FY16 Board Approved Budget = $245MM. The Current Budget of $239.8MM reflects the Current Funding. CBOSS Current Budget Amount for other Contracts will be updated when re-procurement effort is complete later this fall. Owner's Current Budget reflects all Owner's project cost to support RSO by December 2018. PTG Contract Current Budget Amount reflects total payment made to PTG upon date of termination.

Issues: The project is in the process of evaluation of delivery of remaining project work in light of PTG termination. The Total Installed Cost (TIC) will be updated once subject effort is concluded in the future month.
Caltrain Quarterly Report

GRADE CROSSING IMPROVEMENT PROJECT – FY2016

SCOPE:
This project is the continuation of the Caltrain Grade Crossing Improvement Program. It will take the conceptual design of the following top 10 (out of 42) highest priority crossings identified in the Caltrain Grade Crossing Hazard Analysis Report and advance them to final design. The ten grade crossings were chosen because they had an average daily traffic count of 12,000 vehicles or more, which is considered high usage.

The ten grade crossings are:

1. Broadway (Burlingame)
2. Mary Avenue (Sunnyvale)
3. Ravenswood Avenue (Menlo Park)
4. Rengstorff Avenue (Mountain View)
5. Charleston Road (Palo Alto)
6. Castro Street (Mountain View)
7. Peninsula Avenue (Burlingame)
8. Alma Street (Palo Alto)
9. 16th Street (San Francisco)
10. 4th Street (San Mateo)

Issues:
None.

SCHEDULE:

<table>
<thead>
<tr>
<th>Activity Description</th>

<td>30-Apr-19</td>
</tr>
</tbody>
</table>

Note: Schedule extension is due to delay in receiving FRA grant funding and having to re-advertise construction contract. The schedule will be re-baselined after award of construction contract.

Progress:
Jul - Sep 2017

1. Received single bid for the Invitation to Bid (IFB), which was three times the engineer's estimate for construction.
2. Rejected the single bid for construction contract.
3. Held debriefings with potential bidders to ascertain their reasons for lack of bids (i.e., track and signal work scope) and revised bid documents to attract more bidders.
4. Received the FRA grant funding.

Future Activities:
Oct - Dec 2017

1. Advertise the revised IFB without the track and signal work.

Issues:
Track and signal work to be performed by the contract operator (TASI).

GRADE CROSSING IMPROVEMENTS IN REDWOOD CITY PROJECT

SCOPE:
This project will make improvements to three grade crossings (Whipple Ave, Main St. and Broadway) in Redwood City according to the scope defined in the CPUC Section 130 program. The grade crossing improvements will cover railroad, traffic, and roadway safety systems. The design components at each grade crossing include but are not limited to the following:

- Replacing vehicle gate arms
- Channelized pedestrian crossing with fencing & rails
- Improve sidewalk markings
- Improve pavement markings (striping, stop bars, etc.)
- Install standalone pedestrian gates
- Upgrade traffic signal interconnect

Issues:
None.

SCHEDULE:

<table>

<td>01-Oct-18</td>
</tr>
</tbody>
</table>

Note: Design took longer to complete because of the coordination and review by City of Redwood City.

Progress:
Jul - Sep 2017
(1) Awarded the construction contract.
(2) Received the insurance and bonding documents from the contractor.
(3) Received signed agreement from the contractor.

Future Activities:
Oct - Dec 2017
(1) Issue Limited Notice to Proceed (LNTP) for construction.

Issues:
None.

INWARD FACING CAMERAS ON TRAINS PROJECT

SCOPE: This project will install one inward facing camera and one interior microphone on Caltrain locomotives and cab cars to capture in-cab action during critical incidents based on recent NTSB recommendations. The cameras and microphones will be compatible with the existing system installed in 2013.

In 2013, Caltrain installed outward facing cameras and exterior microphones in its locomotives and cab cars to provide the agency with a tool for post incident investigation. The existing system includes a digital video recorder (DVR) and 500 GB hard drive which can store up to 28 days of video footage.

Issues: No proposals were received from contractors, following Request for Proposals (RFP). It has been determined that a sole source procurement will be needed.

SCHEDULE:

<table>

#### Issues:
None.
SCOPE: Scope of the Los Gatos Creek Bridge Replacement Project includes:

- Preliminary Design, Environmental Document, Final Design and Construction for removal and replacement of the existing MT-1 and MT-2 bridges crossing the Los Gatos Creek. As recommended in the PSR, the new replacement structure is to be a pre-stressed / pre-cast concrete bridge with new foundations and a new widened bridge deck that allows construction for a permanent tail track and signal work. The permanent tail track and signal work is being covered under the South Terminal Phase 3 project.
- Environmental Clearance is obtained through the National Environmental Policy Act (NEPA) and California Environmental Quality Act (CEQA) process.

Issues: None.

SCHEDULE:

<table>

<tr>
<td>Project Closure</td>
<td>01-Jan-18</td>
<td>31-May-18</td>
</tr>
</tbody>
</table>

Progress:

Jul - Sep 2017

1. Continued coordination and cost sharing agreement with the City of San Jose.
2. Continued coordination with the UPRR.
3. Continued coordination with VTA for work at Vasona Lead track.
4. Completed construction of abutments 1 and 4 for new tail track.
5. Completed construction of retaining wall 2.
6. Completed construction of Bent 2 & Bent 3 of the tail track.
7. Completed installation of pre-cast girders of tail track.
8. Completed demolition of the existing mainline bridges.
10. Completed construction of wing walls.

Future Activities:

Oct - Dec 2017

1. Continue coordination and cost sharing agreement with the City of San Jose.
2. Continue coordination with the UPRR.
4. Complete installation of tail track bridge and shifted service onto new tail track bridge and tracks.
5. Complete construction of wing walls.
6. Complete PTC (Fiber) testing, pulling and splicing.
7. Achieve substantial completion.

Issues: None.
## LOS GATOS CREEK BRIDGE REPLACEMENT PROJECT

### BUDGET:

<table>
<thead>
<tr>
<th></th>
<th>(a)</th>
<th>(b)</th>
<th>(c)</th>
<th>(d)</th>
<th>(e) = (a - d)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Project</td>
<td>$36,485,963</td>
<td>$28,267,208</td>
<td>$30,355,622</td>
<td>$36,358,553</td>
<td>$127,410</td>
</tr>
</tbody>
</table>

### Issues:

1. The Caltrain Board has approved the FY2018 Capital Budget (Resolution 2017-24) reflected in this quarterly report.
2. Project EAC has been increased by $959K this quarter due to significant unforeseen conditions and differing site conditions. Additional environmental oversight was needed.
3. The Caltrain Board approved an increase in the construction contract authority to cover the estimate at completion increase.

### HSR IMPACT:

None.
MARIN STREET AND NAPOLEON AVENUE BRIDGE CLOSURE PROJECT

SCOPE:
Marin Street and Napoleon Avenue bridges are located at MP 2.35 and MP 2.45 respectively in the City and County of San Francisco.

(1) Project Scope was revised due to the discovery of a city facility below the planned elevated berm that prohibits the original planned scope. The scope was revised so that instead of removing the existing bridges entirely, the revised work scope is to rehabilitate and replace the bridge components that are in need of repair, as well as remove several short spans that are no longer needed functionally.

(2) Track Geometry will not be altered; tracks will be reconstructed to the current alignment and profile.

Issues: Project scope may be revised pending management decision.

Progress:

Jul - Sep 2017
(1) Began out-reach to impacted stakeholders such as City and County of San Francisco and Caltrans.
(2) Began developing contract specifications.
(3) Began evaluating options for including Marin into construction advertisement package.

Future Activities:

Oct - Dec 2017
(1) Continue out-reach to impacted stakeholders such as City and County of San Francisco and Caltrans.
(2) Continue developing contract specifications.
(3) Evaluate options for including Marin into construction advertisement package.
(4) Evaluate if existing conditions are compatible with last design package.

Issues: Bid & Award process has been deferred pending clarity to alter the project scope.

HSR IMPACT: None.
NEW CONTROL POINT AT BRITTAN PROJECT

SCOPE:
This project will design, procure and construct one new Control Point (CP) adjacent to the Brittan Avenue Underpass (MP 23.90). This CP will include a universal #20 crossover, two new signal houses, and the associated track and signal improvements. The new CP will increase operational flexibility system wide.

The new CP will help reduce delays due to single tracking and allow the Caltrain capital program to maximize operating flexibility for construction and emergency activities while maintaining public timetable commitments, both peak and off-peak, weekdays and weekends.

Issues:
None.

SCHEDULE:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Start</th>
<th>Finish</th>

</tr>
</tbody>
</table>

Progress:
Jul - Sep 2017
(1) Completed final design.
(2) Continued shop drawing for No. 20 crossover.
(3) Continued to work with the Electrification project to procure signal houses.
(4) Continued working with Contracts & Procurement on the construction contract.
(5) Began Issue for Bid (IFB) documents for construction contract.

Future Activities:
Oct - Dec 2017
(1) Complete IFB documents.
(2) Continue shop drawing for No. 20 crossover.
(3) Continue to work with the Electrification project to procure signal houses.
(4) Continue bid and award phase for construction contract.
(5) Conduct pre-bid meeting and site visit.

Issues:
(1) Final Design extended due to additional time needed to complete bid package to incorporate comments for the IFB Package.
(2) Bid and Award period extended in order to issue an addendum regarding revising track access requirements.
(3) Construction will require close coordination with Electrification and 25th Avenue Grade Separation projects for track access.

Issues:
1. Caltrain Board has approved the FY2018 Capital Budget (Resolution 2017-24) reflected in this quarterly report.
2. Project EAC has been increased by $170K this quarter to cover additional costs for construction based on the current design review.

HSR IMPACT: None
SCOPE: This project consists of the following tasks for maintenance of the PCJPB’s Communication (COM) Systems.

Design tasks:
All tasks related to assessment, design and drawings of railroad communication system. (Complete)

Construction tasks:
Task 1: Install a new radio base station to improve voice radio coverage in the Mountain View and Sunnyvale area.
Task 2: Improve voice radio coverage in the Brisbane area.
Task 3: Remote reboot capability of channel 5 radio at Monument Peak.
Task 4: Implementation of a Communication System for Track Department’s Weather Sensors. (Complete)
Task 5: Install monitoring system for operation of the red obstruction light on top of the Central Control Facility (CCF) antenna tower. (Complete)

Issues: None.

SCHEDULE:

Progress:
(1) Continued to review and approve submittals and work plans.
(2) Completed installation of the remote weather sensors.
(3) Completed installation and inspection of monitoring system on top of the Central Control Facility (CCF) antenna tower.
(4) Tested the remote weather sensors.
(5) Completed installation of the new tower for the radio base station in the Mountain View and Sunnyvale area.

Future Activities:
(1) Review and approve submittals for new materials from design change.
(2) Complete installation of the new radio base station in the Mountain View and Sunnyvale area.
(3) Start installation of the new tower for the radio base station in the Brisbane area.

Issues: None.

Issues: None.
This project will provide rail grinding services to both production and spot rail grinding as set forth in the rail grinding Work Plan, to be developed by the Contractor and approved by the JPB. The services will be provided on an annual basis and will include management of the rail grinding application, documentation and measurement of the completed grinding process, and program evaluation. The services include:

1. Identify a preferred rail grinding template or templates by evaluating JPB rolling stock and rail infrastructure.
2. Recommend design modifications for rail profile to improve the ride quality and steering characteristics, and to reduce noise levels.
3. Perform a computer analysis of the interaction characteristics between:
   a) the worn wheel profile and the existing rail profile, and
   b) the desired new rail profile and desired wheel profile.
4. Determine the status of rail profile in track and the rail grinding requirements to modify the rail to desired profile specifications.
5. Plan and program the application of production rail grinding so that any impact on the current JPB operations is minimized and the use of its infrastructure and resources are optimized.

Issues: None.

Future Activities: Oct - Dec 2017

This will be the last report for the project.

Issues: None.

#### Issues:

None.
SCOPE: This project is part of the ongoing program to keep Caltrain’s fencing in a State of Good Repair (SOGR). The goal of this project is to reduce trespassing on the Caltrain right of way by installing fence on at least one side of the property between San Francisco MP 0.2 to Lick MP 52.

Caltrain will install vandal resistant fencing at key locations along the main line rail corridor to deter trespassing. This work will include a base contract and three optional contracts which may be exercised with the General Manager’s approval. These contracts includes site clearing, fence demolition, fence installation and vegetation removal.

Issues: The current scope is for the base contract only.

SCHEDULE:

Activity| Activity Description| Start| Finish
---|---|---|---
100053 - Right of Way Fencing Project| 01-Jun-17 A | 31-Mar-18 |
Bid and Award| 01-Jun-17 A | 01-Jun-18 A |
Construction (Base)| 01-Jun-17 A | 31-Dec-17 |
Project Close Out| 01-Jan-18 | 31-Mar-18 |

Progress:
Jul - Sep 2017 (1) Continued fence installation.

Future Activities:
Oct - Dec 2017 (1) Continue fence installation.
(2) Exercise option 1 of construction contract.

Issues: None.

### Chart:

- **Current Board Approved Budget**
- **Expended to Date**
- **Committed to Date**
- **Estimate at Completion**

### Issues:

Current Board approved budget reflects total authorized budget through option 1. The committed and estimate at completion currently reflect the base contract without options. As options are executed these values will be revised.
SAN FRANCISCO ROADWAY BRIDGES REPLACEMENT PROJECT

SCOPE:

The San Francisco Roadway Bridges Replacement project upgrades the Caltrain owned vehicular bridges located at 22nd Street, 23rd Street and Paul Avenue and includes:

1. Remove and replace the existing two-span steel-through girder superstructures as the bridges have reached the end of their useful lives, allowing sufficient vertical clearance to accommodate future projects such as electrification.
2. Remove and reconstruct the existing utility lines attached to the bridges. Provide temporary supports until the bridges are reconstructed.

Issues:

None.

Future Activities:

Oct - Dec 2017

1. Replace fire hydrant at 22nd street to comply with Buy America standards.
2. Complete project closeout.

This will be the last quarterly report for the project.

Issues:

None.

#### Issues:

None

#### HSR IMPACT:

None.
**SCOPE:**

This project will install medians at six grade crossings in Santa Clara County (MP 31 to MP 49) including Churchill Avenue, East Meadow Avenue, Charleston Road, Sunnyvale Avenue, Auzerias Avenue and Virginia Street.

The project will be conducted in two phases:

PHASE I: will analyze the feasibility of installing medians (or other means to prevent vehicles from crossing the railroad tracks when the crossing gates are down) at the grade crossings identified above in Santa Clara County. Investigate items needed to install safety medians at the grade crossings.

PHASE II: will incorporate the recommendations of Phase I, refine the project schedule & estimate and develop associated construction documents for installation.

**Issues:**

Medians construction scope was combined with the FY2016 Grade Crossing Improvements contract for administrative efficiency. The single bid received for the combined bid was rejected due to non-competitive issues and bid documents will be revised and re-advertised for bids.

**SCHEDULE:**

*Note: Schedule extension is due to delay in receiving FRA grant funding for FY2016 Grade Crossing Improvement Project and having to re-advertise construction contract. The schedule will be re-baselined after award of construction contract.*

**Progress:**

Jul - Sep 2017  
(1) Rejected the single bid.

**Future Activities:**

Oct - Dec 2017  
(1) Re-advertise the Invitation to Bid (IFB).

**Issues:**

None.

- **Expenditure to Date:** $195,003
- **Committed to Date:** $195,003
- **Estimate at Completion:** $1,097,000
- **Variance at Completion:** $0

#### Issues:

None.
This project will replace the existing South San Francisco Station. The scope includes track work, signal work, a new 700 foot center board platform with new amenities, new shuttle drop-off, and connectivity to a new pedestrian underpass from the platform to Grand Avenue/Executive Drive. This project will improve safety by eliminating the hold out rule; in addition, the project provides connectivity along Grand Avenue for the City of South San Francisco (CSSF).

Key elements of the project include:

1. New center Platform.
2. New at-grade pedestrian crossing at the north end of station.
3. New pedestrian underpass at the south end of the station.
4. New pedestrian plaza area at west and east end of the pedestrian underpass.
5. Inclusion of CSSF design modifications for the west and east plaza and ramps.
6. Funding of UPRR for replacement of tracks being removed as part of this project.

Issues: None.

Progress: Jul - Sep 2017

1. Continued coordination on the cooperative agreement with Caltrans.
2. Continued discussions with the Positive Train Control (PTC) team.
3. Continued coordination with third party utilities that need to be relocated.
4. Continued relocation coordination with Caltrans.
5. Continued discussions with the City of South San Francisco.
6. Prepared staff report for the award of the construction contract.
7. Caltrain Board approved the award of the construction contract to Proven Management.

Future Activities: Oct - Dec 2017

1. Continue relocation coordination with Caltrans.
2. Continue discussions with the City of South San Francisco.
3. Continue coordination with third party utilities that need to be relocated.
4. Issue Limited Notice to Proceed (LNTP) to the contractor to begin the 60-Day Administrative Period.
5. Begin construction.

Issues: None.

Issues: Caltrain Board has approved the FY2018 Capital Budget (Resolution 2017-24) reflected in this quarterly report.

HSR IMPACT: None
SOUTH TERMINAL PHASE II PROJECT

SCOPE: This project will include planning, design and construction of a 4th mainline track, new signal controls, and new cross overs and slip switches, between the south end of Centralized Equipment Maintenance and Operation Facility (CEMOF) and the north end of the South Terminal Diridon Station.

The purpose of this additional track is to increase corridor flexibility and capacity, increase reliability of service which will allow more frequent non-revenue operations between the South Terminal and CEMOF.

Issues: Current scope is for Preliminary Engineering in support of obtaining environmental clearance.

SCHEDULE:

<table>

Progress:  

Jul - Sep 2017  
(1) Awaiting NEPA clearance.  
(2) Working with FTA to get State Historic Preservation Officer (SHPO) review/feedback.

Future Activities:  
Oct - Dec 2017  
(1) Await NEPA clearance.  
(2) Receive the SHPO feedback, FTA/SHPO will initiate consultation to determine need for a Programmatic Agreement (PA). FTA will communicate to JPB when SHPO has made a determination on the PA.

Issues: Preliminary Engineering has been extended to reflect the additional time to acquire NEPA clearance based on new questions raised by the FTA and requirements from FTA for a Caltrain/SHPO programmatic agreement.

SYSTEMWIDE SIGNAL REHABILITATION PROJECT - FY2013

SCOPE:
This project provides for the maintenance oversight by Caltrain to ensure that the signal system is maintained in a State of Good Repair (SOGR) and complies with all required regulations. Design and construction components are as follows:

Design:
1) Design to retrofit the signal bridge at South San Francisco with safety improvements.
2) Design to retrofit all railroad signal lights (including replacement of the current outdated unilense signal lights) with LEDs.
3) Design to rehab Control Point (CP) Stockton signal house, update equipment & replace low speed switch machines with high speed machines.

Construction:
1) Procure LED signal light retrofit kits.
2) Retrofit all incandescent railroad signal lights with LEDs. (By TASI).
3) Additional scope - separate pedestrian gates arms from vehicular gates to meet CPUC standards at five stations.

Issues:
None.

Progress:
Jul - Sep 2017
(1) Began installation of conduits via directional boring. Completed installation at 4 out of 5 crossings.
(2) TASI finalized award to their directional boring subcontractor.
(3) Issued amendment to TASI’s Work Directive to cover additional expenses associated with night work, additional materials costs, and extended construction schedule.

Future Activities:
Oct - Dec 2017
(1) Complete internal wiring for new pedestrian gates and setting of foundations.
(2) Complete TASI’s directional boring subcontractor field work.
(3) Begin pre-cutover testing at Ravenswood.

Issues:
Project schedule has been extended as construction has been delayed due to TASI’s directional drilling subcontractor’s schedule and unforeseen underground field issues.

SYSTEMWIDE SIGNAL REHABILITATION PROJECT - FY2014

SCOPE:

This project provides for the maintenance oversight by Caltrain to ensure that the signal system is maintained in a State of Good Repair (SOGR) and complies with all required regulations for FY2014.

Design and construction components are as follows:

(1) Procure and replace eight gate mechanisms at eight grade crossings.
(2) Replace rectifiers at seven Control Points.
(3) Retrofit gate savers at twelve of Caltrain’s busiest vehicular crossings.
(4) Design and strengthen the signal cantilever at MP 0.52, in the San Francisco yard.

Issues:

None.

SCHEDULE:

Progress:

Jul - Sep 2017

(1) Completed closeout of TASI work directive.
(2) Completed project close out.

Future Activities:

Oct - Dec 2017

Project is complete.

This will be the last quarterly report for this project.

Issues:

None.
SYSTEMWIDE SIGNAL REHABILITATION PROJECT - FY2014

BUDGET:

| Project Total | $1,000,000 | $950,303 | $950,303 | $950,303 | $49,697 |

**Issues:** None.
SCENARIO:
The fiscal year 2015 (FY15) Signal Rehab Project is a part of the ongoing program to keep Caltrain’s signal system at a State of Good Repair (SOGR).

The scope of this project is to locate the underground signal cables in the field and then survey and plot their locations using Global Position System (GPS) devices. This will include underground railroad signal cables from San Francisco - MP 0.2 to San Jose - MP 51.6. The signal cable locations will be incorporated into PCJPB’s master CADD file. These signal records will help mitigate signal cable conflicts during design and construction.

Scope for the maintenance support was been issued through an amendment to the RSE work directive. This maintenance support will provide the on-going updates to the final CADD drawings as changes are made along the

SYSTEM WIDE TRACK REHABILITATION PROJECT - FY2016

SCOPE:

1. Replace stock rails and points on an as-needed basis.
2. Production rail joint replacement at approximately 50 locations.
3. Remove old or bonded over insulated joints at about 50 locations, approximately 100 welds.
4. Replacement of standard ties and switch ties on main tracks and yards, approximately 1,500 ties.
5. Surfacing 30 miles of curve and tangent track, 25 turnouts at various locations.
6. Upgrade rail lubricators.
7. Purchase of small tools and equipment required for track maintenance activities.
8. Work in South San Francisco Yard, billable to UP.
9. Rebuild 3 grade crossings: Charleston, Meadow, Churchill
10. Minor repairs to bridges, culverts and structures.
11. Leased equipment and facilities.
12. Purchased services – rail detector, geometry inspections, weed abatement.
13. Fence repairs and graffiti removal.

Issues:

None.

SCHEDULE:

Progress:

Jul - Sep 2017

(1) Surfaced nine miles of main line track.
(2) Stabilized nine miles of track
(3) Regulated nine miles of ballast.
(4) Surfaced 26 turnouts.
(5) Built up 17 frog inserts.
(6) Ground 28 switches.
(7) Performed 16 thermite welds.
(8) Installed one insulated joints (IJ).
(9) Changed out 154 feet of rail.
(10) FRA conducted four site visits.
(11) Installed 312 cross ties.
(12) Installed 27 switch tie.
(13) Performed one hyrail inspection.
(14) Performed 16 ultrasonic (UT) tests.
(15) Ran the geometry car.
(16) Performed weed spraying.
(17) Performed tree trimming.
(18) Performed one bridge inspection.
(19) Performed fencing.

Future Activities:

Oct - Dec 2017

(1) Continue ongoing maintenance work.

Issues:

None.

</tbody>
</table>

Progress:
Jul - Sep 2017
(1) Continued procurement process and addressed withdrawal of the low bid contractor.
(2) Determined available options for additional project funding to accommodate bid prices, which were higher than Engineer's Estimate.

Future Activities:
Oct - Dec 2017
(1) Complete procurement process with goal of awarding a construction contract at November 2017 Board meeting.
(2) Begin construction.

Issues:
None.
### UPGRADE CCF EQUIPMENT ROOM COOLING PROJECT

#### Issues:
Additional funding is required to award construction contract due to higher than expected bids. The additional funding has been identified from savings from previous projects.

![Project Budget / Cost Status](image-url)
25th AVENUE GRADE SEPARATION PROJECT

SCOPE:
This project will raise the vertical alignment and provide grade separations between Hillsdale Boulevard and SR-92 in the City of San Mateo, including:

- Grade separating the 25th Avenue at-grade crossing.
- Construction of two new grade separated crossings at 28th and 31st Avenues.
- Perform relocation of the existing Hillsdale Caltrain station. The new station will be an elevated, center-board platform, located south of 28th Avenue.

Scope includes final design/environmental (CEQA and NEPA) clearance work and construction to replace the existing 25th Avenue at-grade crossing with a two-track elevated grade separation. The elevated rail alignment will require the relocation of the existing Hillsdale Caltrain Station northward to a location between 28th and 31st Avenues and will allow for new street connections between El Camino Real and Delaware Street at 28th and 31st Avenues in San Mateo, California.

Issues:
None.

</tbody>
</table>

Progress:
Jul - Sep 2017
(1) Continued meeting with Stakeholders.
(2) Continued discussion with property owners.
(3) Completed PSE legal review.
(4) Completed review of Bid and Award documents.
(5) Awarded construction contract to Shimmick/Disney JV.
(6) Issued Limited Notice To Proceed (LNTP).
(7) Conducted pre-construction meeting.
(8) Continued administrative planning period (submittals required for Notice To Proceed).
(9) Set up construction offices and lay down area.

Future Activities:
Oct - Dec 2017
(1) Continue meeting with Stakeholders.
(2) Complete administrative planning period and issue Notice to Proceed (NTP).
(3) Begin site preparation: surveying, underground utility potholing, SWPPP BMPs, temporary fencing.
(4) Begin tree removal, clearing and grubbing.
(5) Begin construction of temporary east parking lot.
(6) Begin MOW set out track and signal removal.
(7) Begin construction at piles for bridges.

Issues:
Project schedule was extended due to prolonged execution of funding agreements.

</tbody>
</table>

Overall Annual Goal in % 14.0%

% Over/(Under) Goal 0.6%

(1) Also includes On-Call Consultants, Rent and Misc. Contracts.
*Contract-Specific DBE goals will be instituted on upcoming Capital Projects to increase DBE utilization.
Definition of Terms

Committed to Date - The committed to date amount includes all actual expenditure of agency labor, other direct costs, the awarded amount of a work directive, a contract, or a purchase order which have been committed in the PeopleSoft accounting system.

Current Board Approved Budget - The current board approved budget includes the original board approved budget plus approved changes and internal budget transfers.

Estimate at Completion - The forecasted final cost of the project. The estimate at completion can be different from the Current Board Approved Funding, which indicates a variance at completion.

Expended to Date - The cumulative project costs that have been expended through the current reporting period as reported in PeopleSoft + the accrual cost of the work performed that has not been recorded in PeopleSoft.

Variance at Completion - The difference between the Current Board Approved Funding and the Estimate at Completion. A negative variance indicates that additional funding is needed.
