First-Last Mile Modes Diversifying

Study: Scooters Close First-, Last-Mile Gaps
A DelVal University study, funded in part by Bird, showed promise when it comes to closing transit gaps and improving the lives of families without cars.

Has Public Transit Finally Found Its First-Mile-Last Mile Partner In Micromobility?
Scooter Storage: Incorrect Examples

Scooters should not block aisle/walkway

Folded Scooter Storage: Correct Examples
Non-Folding Scooter Storage: Correct Example

Non-folding scooters:
- Tag & bungee scooter
- Park parallel to bikes
- Follow bike car rules

Onboard Scooter: Rules & Guidelines

- Types of Scooters
  - Electric or manually operated scooters are permitted on Caltrain.
  - Fuel-powered scooters are prohibited.
- Onboard Scooter Storage
  - Folded scooter: can accompany a person to a seat in any part of the train if the folded/stored scooter is small enough to fit between the legs of a seated customer or in the luggage car.
  - Non-folding scooter: The appropriate location is in the bike car
- Scooters are subject to all bike rules and policies.
Customer Communication

- Update customer service center
- Social Media
- Onboard take-one
- Website:
  - Incorporate scooter information into website
  - Suggested URL www.caltrain.com/scooter
- Update to bike car decal (“stack bike” > “stack”)
