

## San Mateo Replacement Parking Track Update

Thank you for your interest in the proposed replacement San Mateo Parking Track that was removed to facilitate the construction of the 25th Avenue Grade Separation Project, which will improve safety and traffic flow, reduce horn noise, and result in a new Hillsdale Station in the City of San Mateo.

We wanted to let you know that an [updated feasibility assessment](#) has been posted to the [webpage](#) which includes an additional option (#29 proposed by the community) as well as more information requested by community members.

We hope you can attend the upcoming community meeting on January 13 where an update on efforts since the October 8 community meeting will be given and next steps discussed.

### **Community Meeting**

January 13, 2020

6:00 p.m. to 8:00 p.m.

San Mateo City Hall Atrium

330 W. 20th Avenue, San Mateo, CA 94403

This community meeting is in advance of the San Mateo City Council Study Session on Tuesday, January 21, 2020 at 5:30 p.m.

Please note, all materials and resources from the previous meetings can be found at [www.caltrain.com/SMParkingTrack](http://www.caltrain.com/SMParkingTrack).

### **Background Information**

A "parking track" is a temporary storage space for train equipment. The anticipated use of a San Mateo parking track is 1-2 times a month. Parking tracks allow for efficient use of limited work windows to keep the railroad functioning properly.

The previous San Mateo Parking Track was in existence prior to Caltrain becoming the operator of passenger service. Located in the Bay Meadows area, it was used by Caltrain for 25 years until the grade separation project necessitated its removal.

There are over a dozen parking tracks distributed in residential and commercial areas along the corridor. There is only one maintenance yard, which is a large 20 acre multi-acre complex operation and facility that is located in San Jose.

**For More Information**
