

Burlingame Broadway Grade Separation

Community Meeting
August 08, 2018

Agenda

- I. Overview**
- II. Project Description -- Updates**
- III. Next Steps**
- IV. Questions**

Overview

Project Location

Existing Broadway At-Grade Railroad Crossing

- 92 Caltrain trains each workday use this crossing (114 after Electrification), in addition to freight
- Average of 2 accidents & 105 traffic citations per year
- Lack of grade separation increases vehicular and train delays
- Ranked #1 on CPUC priority list for grade separations

Project Goals

- Enhance safety for motorists, bicyclist & pedestrians
- Improve Caltrain rail operations efficiency
- Improve traffic flow and reduce delays
- Reduce automobile congestion and emissions
- Gateway treatment for Broadway
- New Broadway Station and parking lot
- Landscaping and other enhancements

Project Description

Project Update

- A design option was selected by City Council in 2017 with input from the community.
- Grade Separation will partially elevate rails and partially depress roads at Broadway

Design Update

- Shoofly alignment
- Station Layout
- Vertical profile
- Horizontal profile

New Broadway Station

- Centerboard platform
- Pedestrian underpass
- Weekday Services

Preliminary Station Layout

Rendering: Broadway & California

Rendering: Broadway & Carolan

Project Funding

Preliminary Design & Environmental Clearance

Next Steps

Next Steps

- Spring 2019: Complete 35% Design
- Spring 2019: Additional Public Meetings
- Summer 2019: Complete Environmental Clearance

Burlingame Broadway Grade Separation Project

[Sign Up for Project Updates](#)

Background and Summary

Caltrain, in cooperation with the City of Burlingame, will separate the tracks from the road at Broadway in Burlingame. This will improve safety for motorists, pedestrians, bicyclists and Caltrain railroad operations, as well as reduce local traffic congestion in Burlingame. The project will also construct a new elevated Broadway Station with new amenities that eliminates the current hold-out rule in which only one train is allowed at the station at a time.

Public Meeting Notices

Burlingame Broadway Grade Separation Project

Dear Caltrain Neighbor,

Please join us for a community meeting for an update on the Preliminary Design Phase for the Burlingame Broadway Grade Separation Project.

Meeting Information

August 8, 2018, 6:30 p.m. to 7:30 p.m.

Burlingame Library, Lane Room
480 Primrose Road, Burlingame

The high traffic volumes at the Broadway railroad crossing results in some of the worst traffic congestion in the region. A preferred design alternative was approved by the Burlingame City Council in 2017 for the Broadway Grade Separation Project. The project will separate the tracks from the road at Broadway by partially raising the tracks and partially lowering the road which will improve safety and circulation for motorists, pedestrians, and bicyclists; reduce congestion; and increase railroad operational efficiency. The project will also construct a new elevated Broadway Station with updated amenities. Caltrain, in cooperation with the City of Burlingame, invites you to learn the progression of the preliminary design.
