TO: Bicycle Advisory Committee

FROM: Shirley Johnson  
Leader of BIKES ONboard project  
San Francisco Bicycle Coalition

SUBJECT: **BUMP REPORT**

Cyclists voluntarily report bumps (cyclists denied boarding due to insufficient bike capacity) to the Joint Powers Board (JPB), and these bump reports appear in the JPB correspondence packet. The BIKES ONboard team of the San Francisco Bicycle Coalition tallies the bump reports and posts a graph on its web site at [www.sfbike.org/bob](http://www.sfbike.org/bob). The graph represents a lower bound, because not all bumps are reported.

**PROBLEM:**

Nearly all bumps are from Bombardier trains. Gallery trains carry 80 bikes, but Bombardier trains carry only 48 bikes.

**SOLUTION:**

Bombardier trains need a third bike car to bring bike capacity up to 72 bikes to provide more consistent service, simplify operations, and help avoid leaving paid passengers behind on the platform.

**RECOMMENDATION:**

Conduct a pilot program with three bike cars on Bombardier trains. Survey passengers after the pilot to determine whether to extend the pilot indefinitely.
