23	Dan Provence	Keep apprised of 22nd Street Station modifications/plans	Tasha Bartholomew	3/20/2014	1/15/2015	Over the past several months, several improvements have been made at the 22nd Street stations, including an upgrade to the Public Address system, and adding Visual Message Signs at the station to enhance customer service by providing patrons real time information on the VMS signs. Improvements were part of the PA/VMS project, which also made upgrades to the PA/VMS systems at South SF, Sunnyvale and Diridon stations. As of the end of 2014, all PA/VMS systems at 22nd Street have been working.
40	Garret Turner	Can staff look into whether bikes will be permitted into the building before the BAC meeting on Jan. 15, 2015?	T. Bartholomew	11/20/2014	11/14/2014	The Manager of Security said bikes are not allowed to be brought/parked inside the building anymore because bike racks are provided outside the building and a guard is posted in the lobby.
