ELECTRIFICATION Caltrain **GROUND BREAKING**

PENINSULA AVENUE CROSSING CLOSURE NOTICE | June 5-6, 2018

UPCOMING ACTIVITIES AND CLOSURE

Beginning June 5 at 9 p.m. Caltrain will be performing foundation installation work in San Mateo that will require temporary closures at the Peninsula Avenue grade crossing.

The Peninsula Avenue roadway crossing will be temporarily closed:

Tuesday, June 5 from 9 p.m. to Wednesday, June 6 at 5 a.m.

Illuminated and directional signs will direct vehicle traffic to a detour at Bayswater Avenue. A detour map is provided on the reverse of this notice.

CONSTRUCTION ACTIVITIES

The anticipated construction activities during these closures include excavation, placement of rebar, concrete fill, electrical grounding and installation of foundations. Crews will utilize on-track foundation trains that will require the temporary crossing closures to comply with safety regulations.

Work will take place during the day and at night, with night work occurring between 8 p.m. and 6 a.m. There may also be occasional 24-hour work on weekends. Caltrain will work with contractors to minimize night work to limit the impact to surrounding communities; however, some work must be performed at night in order to maintain regular Caltrain service. To mitigate noise and other impacts during night and weekend activities, the field team will utilize acoustical noise barrier blankets and will position lights away from residential and business areas. Caltrain has established a dedicated project hotline and email for residents concerned about these potential impacts.

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership

demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2022, will electrify and upgrade the performance, operating efficiency, capacity, safety and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with Electric Multiple Unit (EMU) train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric vehicles.

PUBLIC INFORMATION OFFICE

Caltrain has established a project information line and project e-mail for Caltrain Electrification to record and respond to questions and comments from residents and stakeholders.

The project information line can be reached at **650.399.9659** or toll free at **800.660.4287**.

The project e-mail is calmod@caltrain.com

In addition, Caltrain has established a community outreach office at:

2121 S. El Camino Real
Suite A-100
San Mateo, CA 94403

A project representative will be available to answer questions in person from 9:00 a.m. and 5:00 p.m. Mondays through Fridays during construction.

Sign up for weekly construction updates can be found online at: www.calmod.org/get-involved
