

ELECTRIC TRAIN FEATURES AND AMENITIES

Caltrain Electrification will provide passengers with state-of-the-art electric train service by 2024. This historic project will transform the way people will travel from San Francisco to San Jose by providing faster, quieter, greener, and more frequent service to riders.

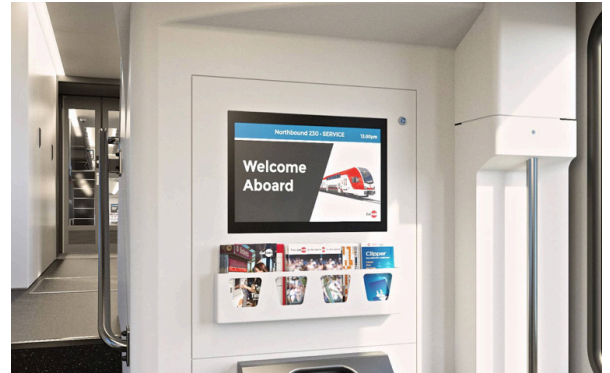

Riders will soon be able to enjoy these state-of-the-art vehicles which feature many enhanced amenities. Here are some of the new features that will provide a world-class transportation experience for riders.

TRAIN FEATURES AND AMENITIES

- State-of-the-art vehicles with better crash safety ratings and improved braking
- Digital displays with real time trip information
- Free Wi-Fi for browsing
- Power sources at every fixed seat
- More comfortable seating
- Onboard restrooms with baby-changing stations in each
- Two dedicated bike cars per seven-car trainset
- Spacious storage under each seat and overhead
- Coat and bag hooks

Commuters will soon experience a smoother ride to work.

All riders on their way to events, activities, essential errands, visiting friends and family (or wherever you're going) will be able to sit back and relax on these new, more comfortable vehicles with superior amenities.
