

CALTRAIN ELECTRIFICATION

16TH STREET and MISSION BAY DRIVE CONSTRUCTION NOTICE | August, 2023

UPCOMING CONSTRUCTION ACTIVITIES

As part of Caltrain Electrification, construction crews have installed a new signal system which controls the gates at vehicular and pedestrian grade crossings in San Francisco. Beginning August 13 at 12:01 a.m., crews will install software updates and test the gates at the 16th Street and Mission Bay Drive crossings. During this time, the crossing gates may be down for up to 5 minutes and test trains may also run to ensure proper functioning of the crossing gates. Flaggers will be present at the crossings to assist traffic when necessary.

The cutover and gate testing dates and hours will be:

12:01 a.m. Aug 13th to 4 a.m. August 14th
 12:01 a.m. Aug 19th to 4 a.m. August 21st
 Monday Aug 21-Friday August 25 after 8 p.m. *contingency dates

Work areas are provided at the bottom of this notice.

CONSTRUCTION ACTIVITIES

During the closure, crews will be testing the new signaling system as part of Caltrain Electrification. Some testing must be conducted at night for safety purposes, and outside of Caltrain's regular service hours. Muni may also detour their service around the 16th Street closure during this time.

PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2024, will electrify and upgrade the performance, operating efficiency, capacity, safety, and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.

CONTACT INFORMATION

The 24-hour contact for this project is the project information line toll free at **800.660.4287**.

Greg Parks, public involvement manager can be reached at **650.399.9659**

Caltrain has established a project information line and project e-mail for Caltrain Electrification to record and respond to questions and comments from residents and stakeholders.

The project e-mail is calmod@caltrain.com
