

# CALTRAIN ELECTRIFICATION

## 25<sup>TH</sup> AVENUE CLOSURE NOTICE | October 2023

### UPCOMING ACTIVITIES AND CLOSURES

From October 23 to October 27, Caltrain will be performing trenching work at the E 25th Avenue grade separation in San Mateo that will require a temporary closure of the southern side of the sidewalk between the undercrossing and S Delaware Street.

**From 9 a.m. to 4 p.m. Monday through Friday, October 23 to October 27 there will be a temporary closure of the southern sidewalk of the E 25<sup>th</sup> Avenue grade separation.**

Directional signs will direct pedestrian traffic to the northern side of the E 25th Avenue sidewalk between the undercrossing and S Delaware Street on the days of the closures.

A detour map is provided at the bottom of this notice.

### CONSTRUCTION ACTIVITIES

During the closure, crews will trench to install conduit for the Caltrain Electrification Project. Work will consist of excavation, trenching and repaving. Crews will utilize equipment that requires the temporary closure of the sidewalk.

### PROJECT OVERVIEW

Over the last decade, Caltrain has experienced a substantial increase in ridership and anticipates further increases in ridership demand as the Bay Area's population grows. Caltrain Electrification, scheduled to be operational by 2024, will electrify and upgrade the performance, operating efficiency, capacity, safety, and reliability of Caltrain's commuter rail service.

Caltrain electrification is a key component of the Caltrain Modernization Program and consists of replacing diesel-hauled with an electric train system for services between Fourth and King Street Station in San Francisco and the Tamien Station in San Jose. The project will include the installation of new electrical infrastructure and the purchase of electric trains.
