San Mateo County Transportation Authority Staff Report

| То: | Board of Directors |
|----------|---|
| Through: | April Chan, Executive Director |
| From: | Kate Jordan Steiner, Chief Financial Officer |
| Subject: | Accept Statement of Revenues and Expenditures for the Period Ending December 31, 2024 |

<u>Action</u>

Staff proposes that the Board accepts and enters into the record the Statement of Revenues and Expenditures for the period ending December 31, 2024, and supplemental information.

The statement columns have been designed to provide an easy comparison of current year-todate actuals against year-to-date budget figures, including dollar and percentage variances.

Revenues:

As of December 31, 2024, Total Revenues were \$107.6 million, exceeding the adopted budget of \$106.6 million by \$0.9 million (0.9 percent).

This favorable variance was driven by a \$3.6 million increase in interest income:

- New Measure A Interest Income, which increased to \$10.4 million compared to the \$7.9 million budget, resulting in a favorable variance of \$2.5 million (31.6 percent).
- Original Measure A and Measure W interest income combined total \$5.4 million compared to the \$4.3 million budget, resulting in a \$1.1 million favorable variance (25.6 percent), with \$3.3 million from Measure W and \$2.1 million from Original Measure A.

Generally, the Year-to-date actual interest income increased notably, driven by \$2.5 million interest earned upon the maturity of a \$50 million term deposit in November 2024 in addition to favorable interest rates.

However, this increase was partially offset by the unfavorable variances in sales tax receipts totaling \$2.0 million:

- New Measure A Sales Tax was \$1.4 million unfavorable (2.3 percent) with actual receipts of \$59.7 million compared to a \$61.1 million budget.
- Transportation Authority (TA) Managed Measure W Sales Tax was \$0.6 million unfavorable (2.0 percent) with actual receipts of \$29.9 million compared to \$30.5 million.

Sales tax receipts were unfavorable following the first quarter true-up. The trend through the second quarter showed a slight slowdown in sales tax revenues. An updated forecast from third-party consultant, Hinderliter de Llamas and Associates (HDL), is expected in January 2025,

which may reflect a downward adjustment. This update will provide further clarity and guide planning for the remainder of Fiscal Year 2025.

Expenditures:

As of December 31, 2024, total expenditures were \$44.5 million, significantly below the adopted budget of \$95.7 million, resulting in a favorable variance of \$51.2 million (53.5 percent).

The favorable variance is primarily driven by the following:

- Competitive & Discretionary Programs Authorization of New Measure A (Sales Tax) actual expenditures of \$6.3 million as compared to the adopted budget of \$41.6 million, resulting in a favorable variance of \$35.3 million (84.8 percent). These variances are driven by phasing and associated timing of capital projects expenses such as Caltrain Capital Programs, Highways, Railroad Grade Separation, Pedestrian & Bicycle Programs and Alternative Congestion Relief Programs. The annual budget of \$83.2 million is planned for allocation to projects under the competitive call for projects issued by TA on their biennial process. Funds are typically claimed in subsequent fiscal years upon project completion and invoicing.
- Competitive & Discretionary Programs Authorization of Measure W (TA's Managed Sales Tax) actual expenditures of \$2.7 million as compared to the adopted budget of \$23.6 million, resulting in a favorable variance of \$20.9 million (88.6 percent). Similarly, the variances are driven by phasing and associated timing of capital projects expenses such as Street and Highway Programs, Local Safety, Pedestrian & Bicycle Programs, and Regional Transit Connections Program. The annual budget of \$47.2 million is planned for allocation to projects under the competitive call for projects issued by TA during their biennial process, with funds typically claimed in subsequent fiscal years upon project completion and invoicing.

Other Information:

The Transportation Authority accounts for revenues and expenditures on a modified accrual basis (only material revenues and expenditures are accrued) on the monthly financial statement. As such, the variance between the current year's actual and the budget may show noticeable variances due to the timing of expenditures.

Budget Impact

There is no budget impact for the month of December 2024.

Additional Disclosure:

This information is for the sole purposes of the client and is not intended to provide specific advice or recommendations. Please review the contents of this information carefully. Should you have any questions regarding the 2/6/2025 information presented, calculation methodology, investment portfolio, security detail, or any other facet of this information, please feel free to contact us.

Public Trust Advisors, LLC (Public Trust) statements and reports are intended to detail our investment advisory activity as well as the activity of certain client accounts managed by Public Trust. The custodian bank maintains the control of assets and executes and settles all investment transactions. The custodian statement is the official record for security and cash holdings transactions. Public Trust recognizes that clients may use these reports to facilitate record keeping; therefore, it is recommended that the client recordie this information with their custodian bank statement. Many custodians use a settlement due basis that may result in the need to reconcile due to a timing difference. The underlying market value, amortized cost, and accrued interest may differ between the custodian and this statement or report. This can be attributed to differences in calculation methodologies and pricing sources used.

Public Trust does not have the authority to withdraw funds from or deposit funds to the custodian. Our clients retain responsibility for their internal accounting policies, implementing and enforcing internal controls, and generating ledger entries or otherwise recording transactions. The total market value represents prices obtained from various sources; it may be impacted by the frequency at which prices are reported, and such prices are not guaranteed. Prices received from pricing vendors are generally based on current market quotes but when such quotes are not available, the pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed-income securities, may be based on certain minimum principal amounts (e.g. \$1 million) and may not reflect all the factors that affect the value of the security including liquidity risk. The prices provided are not available from a pricing source. The market value of a security, including those priced at par value, may differ from its purchase price and may not closely reflect the value of value at which the security may be sold or purchased based on various market factors. The securities in this investment portfolio, including shares of mutual funds, are not guaranteed or otherwise protected by Public Trust, the FDIC (except for certificates of deposit), or any government agency unless specifically stated otherwise.

Clients may be permitted to establish one or more unmanaged accounts for the purposes of client reporting. Clients may also be permitted to provide externally managed assets for the purposes of client reporting. Public Trust defines unmanaged accounts or assets as one where the investment direction remains the sole responsibility of the client rather than the Investment Manager. Unmanaged accounts or external assets do not receive ongoing supervision and monitoring services. The Investment Manager does not make any investment recommendations and may not charge a fee for reporting on these accounts or assets. The primary purpose for this service is to include unmanaged accounts or assets owned by the client in the performance reports provided by the Investment Manager. The Investment Manager assumes no liability for the underlying performance of any unmanaged accounts or assets, and it is the client's sole responsibility for the accuracy or correctness of any such performance.

Beginning and ending balances are based on market value plus accrued interest on a trade date basis. Statements and reports made available to the end user either from Public Trust or through the online reporting platform may present information and portfolio analytics using various optional methods including, but not limited to, historical cost, amortized cost, and market value. All information is assumed to be correct, but the accuracy has not been confirmed and therefore is not guaranteed to be correct. Information is obtained from third party sources that may or may not be verified. The data in this report is unaudited and is only applicable for the date denoted on the report. Market values may change day-to-day based on numerous circumstances such as trading volume, news released about the underlying issuer, issuer performance, etc. Underlying market values may be priced via numerous aspects as certain securities are short net of all fees and expenses and reflect the reinvestment of dividends and other earnings.

Many factors affect performance including changes in market conditions and interest rates and in response to other economic, political, or financial developments. Investment involves risk including the possible loss of principal. No assurance can be given that the performance objectives of a given strategy will be achieved. Past performance is no guarantee of future results. Any financial and/or investment decision may incur losses.

The investment advisor providing these services is Public Trust Advisors, LLC, an investment adviser registered with the U.S. Securities and Exchange Commission (SEC) under the Investment Advisers Act of 1940, as amended. Registration with the SEC does not imply a certain level of skill or trust is required to maintain a written disclosure brochure of our background and business experience. If you would like to receive a copy of our current disclosure brochure, Privacy Policy, or Code of Ethics, or have any questions regarding your account please contact us.

SMCTA – Glossary of Terms

Accrued Interest The interest that has accumulated on a bond since the last interest payment up to, but not including, the settlement date. Accrued interest occurs as a result of the difference in timing of cash flows and the measurement of these cash flows.

Amortized Cost The amount at which an investment is acquired, adjusted for accretion, amortization, and collection of cash.

Book Yield The measure of a bond's recurring realized investment income that combines both the bond's coupon return plus it amortization.

Average Credit Rating The average credit worthiness of a portfolio, weighted in proportion to the dollar amount that is invested in the portfolio.

Convexity The relationship between bond prices and bond yields that demonstrates how the duration of a bond changes as the interest rate

Credit Rating An assessment of the credit worthiness of an entity with respect to a particular financial obligation. The credit rating is inversely related to the possibility of debt default.

Duration A measure of the exposure to interest rate risk and sensitivity to price fluctuation of fixed income investments. Duration is expressed as a number of years.

Income Return The percentage of the total return generated by the income from interest or dividends.

Original Cost The original cost of an asset takes into consideration all of the costs that can be attributed to its purchase and to putting the asset

Par Value The face value of a bond. Par value is important for a bond or fixed income instrument because it determines its maturity value as well as the dollar value of coupon payments.

Price Return The percentage of the total return generated by capital appreciation due to changes in the market price of an asset.

Short Term Portfolio The city's investment portfolio whose securities' average maturity is between 1 and 5 years.

Targeted Maturities Portfolio The city's investment portfolio whose securities' average maturity is between 0 and 3 years.

Total Return The actual rate of return of an investment over a given evaluation period. Total return is the combination of income and price

Unrealized Gains/(Loss) A profitable/(losing) position that has yet to be cashed in. The actual gain/(loss) is not realized until the position is closed. A position with an unrealized gain may eventually turn into a position with an unrealized loss, as the market fluctuates and vice versa.

Weighted Average Life (WAL) The average number of years for which each dollar of unpaid principal on an investment remains outstanding, weighted by the size of each principal payout.

Yield The income return on an investment. This refers to the interest or dividends received from a security and is expressed as a percentage based on the investment's cost and its current market value.

Yield to Maturity at Cost (YTM @ Cost) The internal rate of return of a security given the amortized price as of the report date and future expected cash flows.

Yield to Maturity at Market (YTM @ Market) The internal rate of return of a security given the market price as of the report date and future expected cash flows.

Years to Effective Maturity – The average time it takes for securities in a portfolio to mature, taking into account the possibility that any of the bonds might be called back to the issuer.

Years to Final Maturity The average time it takes for securities in a portfolio to mature, weighted in proportion to the dollar amount that is invested in the portfolio. Weighted average maturity measures the sensitivity of fixed income portfolios to interest rate changes.

San Mateo County Transportation Authority Staff Report

| To: | Board of Directors |
|----------|--|
| Through: | April Chan, Executive Director |
| From: | Kate Jordan Steiner, Chief Financial Officer |
| Subject: | Accept Quarterly Investment Report and Fixed Income Market Review and Outlook |

<u>Action</u>

Staff recommends the Board accept and enter into the record the Quarterly Investment Report and Fixed Income Market Review and Outlook for the quarter ended December 31, 2024 (Fiscal Year 2025 Quarter 2 (FY25Q2)).

Significance

The San Mateo County Transportation Authority (TA) Investment Policy contains a requirement for a quarterly report to be transmitted to the Board within 45 days of the end of the quarter.

Budget Impact

There is no budget impact.

Background

The TA is required by California State law to submit quarterly investment reports to the Board of Directors within 45 days of the end of each quarter. The report provides transparency and accountability in managing public funds by detailing the investment portfolio's composition, performance, and compliance with legal and policy requirements. For December 31, 2024 (FY25Q2), the report includes:

- Types, issuers, maturity dates, and amounts of investments.
- Descriptions of funds managed by contracted parties.
- Current market values for all securities as of December 31, 2024.
- Compliance with the Investment Policy and California Government Code.
- Certification of the Transportation Authority's ability to meet its six-month expenditure requirements.

Portfolio Overview:

The TA's \$837.7 million investment portfolio is divided into two portions:

1. Managed Portion: Reserve and Measure W funds (Exhibit A) managed by Public Trust Advisors LLC (PTA).

2. Liquid Portion: Funds in short-term investment vehicles (e.g., State of California Local Agency Investment Fund, California Asset Management Program, bank holdings, and money market mutual funds) for liquidity and optimized returns.

Earnings for the quarter:

- Total interest earnings: \$9,792,084.
- Managed holdings contributed \$2,082,270.

Discussion

Market Conditions

In 2024, the Federal Reserve reduced the federal funds rate by one percentage point over three meetings, ending the year at a range of 4.25 percent – 4.5 percent. Despite these cuts, long-term Treasury yields rose due to expectations of future economic growth and inflation. The U.S. economy showed resilience, with strong GDP growth, robust labor market conditions, and record consumer spending during the holiday season. Projections for 2025 suggest moderate growth but acknowledge risks from inflation, labor market shifts, and geopolitical tensions.

Federal Reserve Actions:

- Three rate cuts in 2024 reduced the federal funds rate to 4.25 percent 4.5 percent.
- Gradual rate reductions are expected in 2025.
- GDP growth for 2025 is projected at 2.1 percent, with stable unemployment and a 2 percent inflation target.

Market and Economic Indicators:

- Long-term Treasury yields rose, with the 10-year yield reaching 4.58 percent by yearend.
- Real GDP grew 3.1 percent in Quarter 3 of 2024, driven by consumer spending and investments.

Labor Market and Consumer Spending:

- December 2024 added 256,000 jobs; unemployment fell to 4.1 percent.
- Record \$282 billion spent online during the holiday season, a 4 percent annual increase.

Portfolio Compliance

The Transportation Authority's investment portfolio complies with the Investment Policy and relevant California Government Code provisions. Managed holdings' valuations were sourced from ICE Data Services, while liquidity holdings are valued at book value, consistent with their short-term nature. The Transportation Authority also certifies its ability to meet expenditure requirements for the next six months.

INVESTMENT GLOSSARY

Asset Backed Securities - An asset-backed security (ABS) is a financial security backed by a loan, lease or receivables against assets other than real estate and mortgage-backed securities. For investors, asset-backed securities are an alternative to investing in corporate debt.

Certificate of Deposit - A certificate of deposit (CD) is a savings certificate with a fixed maturity date, specified fixed interest rate and can be issued in any denomination aside from minimum investment requirements. A CD restricts access to the funds until the maturity date of the investment. CDs are generally issued by commercial banks and are insured by the FDIC up to \$250,000 per individual.

Collateralized Mortgage Obligation - Collateralized mortgage obligation (CMO) refers to a type of mortgage-backed security that contains a pool of mortgages bundled together and sold as an investment. Organized by maturity and level of risk, CMOs receive cash flows as borrowers repay the mortgages that act as collateral on these securities. In turn, CMOs distribute principal and interest payments to their investors based on predetermined rules and agreements.

Commercial Paper - Commercial paper is an unsecured, short-term debt instrument issued by a corporation, typically for the financing of accounts receivable, inventories and meeting short-term liabilities. Maturities on commercial paper rarely range any longer than 270 days. Commercial paper is usually issued at a discount from face value and reflects prevailing market interest rates.

Credit Spreads - The spread between Treasury securities and non-Treasury securities that are identical in all respects except for quality rating.

Duration - The term duration has a special meaning in the context of bonds. It is a measurement of how long, in years, it takes for the price of a bond to be repaid by its internal cash flows. It is an important measure for investors to consider, as bonds with higher durations carry more risk and have higher price volatility than bonds with lower durations.

Net Asset Value - Net asset value (NAV) is value per share of a mutual fund or an exchangetraded fund (ETF) on a specific date or time. With both security types, the per-share dollar amount of the fund is based on the total value of all the securities in its portfolio, any liabilities the fund has and the number of fund shares outstanding.

Roll-down - A roll-down return is a form of return that arises when the value of a bond converges to par as maturity is approached. The size of the roll-down return varies greatly between long and short-dated bonds. Roll-down is smaller for long-dated bonds that are trading away from par compared to bonds that are short-dated.

Roll-down return works two ways in respect to bonds. The direction depends on if the bond is trading at a premium or at a discount. If the bond is trading at a discount the roll-down effect

3 of 9

will be positive. This means the roll-down will pull the price up towards par. If the bond is trading at a premium the opposite will occur. The roll-down return will be negative and pull the price of the bond down back to par.

Volatility - Volatility is a statistical measure of the dispersion of returns for a given security or market index. Volatility can either be measured by using the standard deviation or variance between returns from that same security or market index. Commonly, the higher the volatility, the riskier the security.

Yield Curve - A yield curve is a line that plots the interest rates, at a set point in time, of bonds having equal credit quality but differing maturity dates. The most frequently reported yield curve compares the three-month, two-year, five-year, and 30-year U.S. Treasury debt. This yield curve is used as a benchmark for other debt in the market, such as mortgage rates or bank lending rates, and it is also used to predict changes in economic output and growth.

Yield to Maturity - Yield to maturity (YTM) is the total return anticipated on a bond if the bond is held until the end of its lifetime. Yield to maturity is considered a long-term bond yield but is expressed as an annual rate. In other words, it is the internal rate of return of an investment in a bond if the investor holds the bond until maturity and if all payments are made as scheduled.

Resolution No. 2025-

Board of Directors, San Mateo County Transportation Authority State of California

* * *

Resolution of Appreciation for

Ray Mueller

Whereas, Supervisor Ray Mueller began his tenure on the San Mateo County Transportation Authority (TA) Board of Directors in January 2023 as a representative of the San Mateo County Board of Supervisors; and

Whereas, Ray Mueller has been an advocate for important transportation issues and projects to improve the quality of life for communities throughout San Mateo County; and

Whereas, Ray Mueller has been a tireless and effective advocate for San Mateo County with a fair approach to a regional transportation funding ballot measure; and

Whereas, Ray Mueller in 2024 supported California's first Countywide Automated Vehicles Strategic Plan that identifies the current federal, state, and local regulatory framework for AVs, defines types of AV strategies, summaries community priorities from public outreach, and highlights best practices for locally driven AV pilots and programs; and

Whereas, Ray Mueller in 2023 supported the programming and allocation of \$8 million in Measure A Shuttle Program funds to support the operations of 24 commuter and community shuttles for Fiscal Years 2024 and 2025; and

Whereas, Ray Mueller in 2023 supported the programming and allocation of \$135.9 million in Measure A and Measure W Highway Program Funds for 11 highway improvement projects in San Mateo County; and

Now, Therefore, Be It Resolved that the San Mateo County Transportation Authority Board of Directors hereby commends and expresses its sincere appreciation to **Ray Mueller** for his service to the TA and wishes him well in his future endeavors.

Regularly passed and adopted this 6th day of February, 2025.

101 Corridor Connect North County Multimodal Strategy

The 101 Corridor Connect Multimodal Strategy focuses on a one-mile radius on either side of the US101 to identify and prioritize critical yet unfunded transportation projects for future funding.

The project team is currently finalizing the North County Multimodal Strategy and recently held the third and final working group meeting with representatives from local jurisdictions and agencies. During the meeting, the team reviewed the scoring and prioritization methodology for projects, which is aligned with the program goals of safety, connectivity, sustainability, and inclusivity. The team also presented the top 20 scoring projects for feedback, which included bicycle only, bicycle/pedestrian, transit infrastructure, and operational enhancement projects. The next step is for the working group to review and provide input on the draft strategy in February. The draft strategy is scheduled for presentation to the TA Board in Spring 2025.

US 101/SR 92 Area Improvements Project Update

The US 101/SR 92 Area Improvements Project is co-sponsored by the TA and the City/County Association of Governments of San Mateo County (C/CAG) and will address existing safety and operational deficiencies at four locations within the interchange. These improvements include ramp modifications that will be constructed within Caltrans' existing right of way. The project is funded with \$23 million from the Measure A Highway Program, \$22 million from Regional Measure 3 (RM3), \$5.6 million in State Transportation Improvement Program (STIP) funds and a \$1 million federal earmark for a total project cost of \$51.6 million.

Caltrans is the implementing agency for construction and advertised the project on August 19, 2024. Caltrans received nine bids on November 13, 2024, and recommended award of the project to the lowest bidder, Gordon N. Ball Incorporated on November 25, 2024. The lowest bid of \$27,715,570 was \$792,679 or 3% under the Engineer's Estimate of \$28,508,249. The contract is being processed by Caltrans and it is anticipated to be executed by February 2025. Construction activities are scheduled to begin in spring 2025 and will be complete in late 2026. TA staff continues to coordinate with Caltrans' Public Information Officer to ensure that residents and the traveling public will be informed about construction activities once the schedule has been finalized.

Atherton - El Camino Real Complete Streets Plan

The Town of Atherton has sponsored a complete streets study to evaluate ways to expand travel options and enhance safety for a 1.5-mile segment of El Camino Real between Selby Lane and Glenwood/Valparaiso Avenue. The study is funded with \$450,000 from the TA's Pedestrian/Bicycle Call for Project Program – Cycle 6 and the TA is providing technical assistance.

The project team completed "Phase 1" Existing Conditions analysis in fall 2024. This included numerous community engagement activities such as in-person pop-up events, listening sessions, community meetings and a survey/mapping tool to gather key insights from corridor users. These insights are being used in "Phase 2" to develop proposed design concepts that include dedicated bike facilities and sidewalks. The team is now seeking community feedback on the proposed design concepts, including through a survey that is available on the project website at <u>www.ecrcompletestreets.com</u>.

Commute.org TDM Workshop

Commute.org is hosting an upcoming Transportation Demand Management (TDM) Workshop on February 25. This workshop will bring together jurisdiction staff and stakeholders from across San Mateo County to discuss key topics, including TDM education, grant opportunities, Transportation Management Association (TMA) formation, and policy and compliance updates.

TA staff will participate as speakers during this event, providing an overview of the Alternative Congestion Relieve (ACR)/TDM Grant Program and sharing information about past awarded projects and projects that are eligible to encourage increased participation in the next funding cycle, anticipated to be released in June 2025. Jurisdictions attending the workshop will receive additional points on their ACR/TDM grant applications, providing an added incentive to both attend this collaborative event and engage in future funding opportunities.

Grade Separation Program Update

Cost escalation is a significant concern for the Grade Separation Program and TA staff plans to bring an update at the March Board meeting on program funding and a status update on the two active grade separation projects at Broadway and Linden-Scott. TA staff expects that both projects may request additional funding to complete their current phases of work in the near future, and staff will also initiate a policy discussion at the March meeting to determine how best to allocate remaining Grade Separation program funds given the increased costs and limited options for external funding. A brief status update on both projects is provided below in advance of the March meeting.

Broadway Grade Separation Project

The project is currently in the design phase (PS&E) and a construction manager/general contractor (CM/GC) was hired in April 2024 to provide input on constructability and construction costs. The revised construction cost estimate increased the total project cost from approximately \$325 million to over \$600 million, creating a significant funding gap. Escalated costs were attributed to design revisions, means of construction, inflation, constraints with working on the electrified railroad, as well as rising costs of materials and labor. The project team is conducting a value engineering effort to

reduce project costs through optimizing the scope and schedule. An update on this value engineering effort is currently planned for presentation to the City of Burlingame City Council at the City's February 18th meeting.

Linden-Scott Grade Separation Project

This project is currently in the preliminary design and environmental phase (PA&ED). Last year, the project completed a value engineering effort and identified construction methods to lower the construction duration, reduce potential right-of-way impacts, and reduce traffic impacts during construction. The original total project cost was estimated at \$450 million, and the value engineering "VE" total project cost has been reduced to \$320 million. The Caltrain project team is providing updates to the project sponsors' (the City of South San Francisco and the City of San Bruno) city councils as well as seeking their approval of the VE project scope. The presentation to the City of San Bruno was on January 28. The City of South San Francisco received an informational update on January 22 and an action item to consider the two alternatives will be presented on February 12.

Holly Overcrossing Listening Session and Next Steps with City

In early January, City of San Carlos staff led a listening session for community members and bike safety advocates to provide their thoughts on how to best address bicycle and pedestrian safety at the Holly Street Interchange. City staff indicated their commitment to a longer-term project to construct a new pedestrian and bicycle overcrossing, while recognizing the need for short-term solutions to address safety concerns. Community members presented various ideas to staff including construction of a median path protected by concrete K-rails, improved pavement markings and more signage to warn drivers about the presence of bicyclists. Residents also proposed curb bulb-outs to slow the speed of right-turning vehicles along with wider pedestrian crosswalks. As a follow-up to the listening session, TA staff will be meeting with San Carlos staff to discuss how the TA can provide technical assistance to help the City develop both near-term and long-term solutions, including encouraging the City to apply to the upcoming highway program call for projects to help fund safety improvements within the interchange.

| From: | Peter Skinner, Executive Officer, Transportation Authority | Kate Jordan Steiner, Chief Financial Officer |
| Through: | April Chan, Executive Director | |
| То: | Board of Directors | |

<u>Action</u>

Staff recommends the San Mateo County Transportation Authority (TA) Board of Directors (Board) amend the Fiscal Year 2025 (FY25) Budget to:

- Incorporate Original Measure A rental income and increase total expenditures by \$24,137,531, from \$191,035,418 to \$215,172,949 (Lines 33 and 34, Attachment A); and
- 2. Assign all future rental income from properties purchased with Original Measure A funds to the applicable corresponding New Measure A categories until the properties are transferred to or purchased for TA-supported projects.

Significance

During the FY25 budget format update and Peoplesoft cleanup, it was noted that rental income from properties purchased with Original Measure A funds as part of the Dumbarton, Caltrain, and Grade Separation categories had been assigned a separate fund code. This revenue was added to the Original Measure A fund balance, but was never budgeted for programming or expenditure. The proposed action will update the FY25 TA Budget to incorporate this income and assign all future such income to the applicable corresponding New Measure A categories until the properties are transferred to or purchased for TA-supported projects.

This action will true-up all available Original Measure A rental income to allow the TA Board to program and allocate funds to projects. It is staff's goal to work with sponsors to expend all remaining Original Measure A by the end of 2025.

Budget Impact

The overall impact to the FY25 Budget is an increase of \$24,137,531 in total expenditures, from \$191,035,418 to \$215,172,949.

Background

On June 6, 2024, the Board adopted the FY25 Budget in the amount of \$189,035,418 per resolution 2024-09.

On December 5, 2024, the Board amended the FY25 Budget by \$2,000,000 per resolution 2024-22.

Resolution No. 2025-

Board of Directors, San Mateo County Transportation Authority State of California

* * *

Amending the Fiscal Year 2025 Budget to Increase Total Expenditures from \$191,035,418 to \$215,172,949

Whereas, on June 7, 1988, the voters of San Mateo County approved a ballot measure to allow the collection and distribution by the San Mateo County Transportation Authority (TA) of a half-cent transactions and use tax in San Mateo County for 20 years with the tax revenues to be used for highway and transit improvements pursuant to the Transportation Expenditure Plan presented to the voters (Original Measure A); and

Whereas, on November 2, 2004, the voters of San Mateo County approved the continuation of the collection and distribution by the TA of the Measure A half-cent transactions and use tax for an additional 25 years to implement the 2004 Transportation Expenditure Plan (TEP) beginning January 1, 2009 (New Measure A); and

Whereas, the Board of Directors (Board) adopted the TA's Fiscal Year (FY) 2025 Budget on June 6, 2024, pursuant to Resolution 2024-09, based on projected tax revenues for FY2025; and

Whereas, the Board amended the TA's FY25 Budget on December 5, 2024, pursuant to Resolution 2024-22, for the adoption of the Strategic Plan 2025-29; and

Whereas, staff recommends the Board amend the FY25 Budget to reflect an increase in available Original Measure A funds due to previously-unassigned rental income generated from properties purchased with Original Measure A funds; and

46

Whereas, staff recommends that the Board authorize all future rental income from properties purchased with Original Measure A funds (e.g., with funds from Caltrain, Grade Separation or Highway Program funds) to be assigned to the corresponding New Measure A categories until the properties are transferred to or purchased for TA-supported projects.

Now, Therefore, Be It Resolved that the Board of Directors of the San Mateo County Transportation Authority hereby amends the Fiscal Year 2025 Budget to:

- 1. Incorporate Original Measure A rental income and increase total expenditures by \$24,137,531, from \$191,035,418 to \$215,172,949 as set forth in Attachment A; and
- Assign all future rental income from properties purchased with Original Measure A funds to the applicable corresponding New Measure A categories until the properties are transferred to or purchased for TA-supported projects.

<u>Action</u>

Staff proposes the Board receive the attached federal and state legislative updates.

Significance

The 2025 Legislative Program establishes the principles that will guide the legislative and regulatory advocacy efforts. Based on those principles, staff coordinates closely with our federal and state advocates on a wide variety of issues that are considered in Congress and the State Legislature. The attached reports highlight the recent issues and actions that are relevant to the Board and specifies those bills on which staff proposes that the TA take a formal position.

Re: STATE LEGISLATIVE UPDATE – February 2025

General Update

On January 10, the Department of Finance released the Governor's 2025-26 Proposed Budget, showcasing a relatively status quo state budget, especially for transportation programs. Due to the final budget agreement for 2024-25 that spread the state's \$45 billion deficit over a two-year period, the 2025-26 proposed budget brings the state back to a more stable fiscal footing, with a modest \$363 million surplus. Unlike last year, when the Governor's revenue estimates and projected deficit differed dramatically from those of the Legislative Analyst's Office, the Legislature's non-partisan fiscal advisor has only slightly different estimates from the Department of Finance this year, projecting an approximately \$2.2 billion deficit.

Major fiscal uncertainty remains, however, as the impacts of January's devastating fires in Southern California were not contemplated when the budget was prepared. Governor Newsom quickly expanded his existing special session declaration to encompass response and recovery costs for the LA fires. The Legislature responded with budget legislation providing up to \$2.5 billion state funding for these purposes. While legislators have discussed potentially tapping the recently approved \$10 billion Proposition 4 climate bond for Southern California fire recovery costs, the new budget amendments defer decisions about using these funds until later in the budget process in April.

We anticipate that the May Revision will have a more robust evaluation of the budgetary impacts of these emergencies, including the availability of federal emergency aid and the impacts to revenue estimates based on the extension until October 15, 2025, of state and federal income tax payments due from taxpayers in Los Angeles County between January 7, 2025, and that date.

Transportation Funding Remains Intact in Budget

The January budget was uneventful for transportation funding, with no additional cuts and limited new General Fund spending proposals beyond what was included in last year's budget deal. Program areas with previously approved supplemental funding that remain to be expended include:

Grade Separations. The Governor's budget maintains \$150 million in General Fund for grade separation projects. Last year's transportation budget trailer bill (<u>AB 173</u>) required the California State Transportation Agency (CalSTA) to coordinate with Caltrans and the CTC to identify by April 30, 2025 available funding to backfill a \$200 million reduction for grade separation projects at risk of losing or failing to secure federal and local funding awards. The Governor's budget did not include a specific plan for the source of the backfill funding, although CalSTA staff have indicated to Politico Group that the backfill plan is prepared and will be available by the

statutory deadline. The Broadway/Burlingame grade separation project is one of the awardees that lost funding.

- Highways to Boulevards Pilot Program. The Governor's budget maintains \$75 million in General Fund for the previously-awarded competitive grants in the Reconnecting Communities: Highways to Boulevards Pilot Program from the Greenhouse Gas Reduction Fund. The TA is one of the awardees for the Highways to Boulevards Pilot Program.
- Active Transportation Program (ATP). The Governor's 2025-26 budget maintains the \$100 million allocation from the General Fund to the ATP included in last year's budget bill. Unfortunately, this funding will merely allow the California Transportation Commission (CTC) to maintain current funding commitments under Cycle 7 of the ATP. The CTC announced statewide and small/rural competitive funding awards, which did not include projects in San Mateo County, in November. ATP awards from MTC and other large regions will be announced in June.

The Governor's budget maintains existing General Fund commitments to multimodal transportation programs and projects, totaling approximately \$14.2 billion, and maintains all special funds for their intended transportation purposes. This includes multi-year funding for the competitive and formula Transit and Intercity Rail Capital Program, the Zero Emission Transit Capital Program, and other previously awarded programs.

Finally, the transportation budget includes \$2.3 million to support regulatory work at the California Air Resources Board to increase ethanol content in gasoline from 10 percent to 15 percent in California as a strategy to further increase gasoline supply and reduce gasoline prices, and \$25 million for the Clean California Program. The latter investment would allow Cities and counties with a "Clean California Community" designation to access a "Community Cleanup and Employment Pathways Grant Program" as a matching grant for litter remediation and job creation.

Legislative Committee Assignments

President pro Tempore McGuire announced the chairs and membership of Senate policy and fiscal committees in early January. Speaker Rivas had previously announced committee chairs in late December and full committee memberships on January 17. San Mateo County's legislative delegation members continue to serve in variety of key positions relevant to the TA, including:

- Assemblymember Diane Papan Member, Transportation Committee
- Assemblymember Catherine Stefani Member, Local Government Committee
- Senator Scott Wiener Chair, Budget and Fiscal Review Committee

In addition, Senator Becker has been elevated to Chair of the Senate Energy, Utilities and Communications Committee; Assemblymember Papan continues as Chair of the Water, Parks and Wildlife Committee; Assemblymember Berman continues as Chair of the Business and Professions Committee; and Assemblymember Stefani is one of only five first-term assemblymembers who are chairing a committee as co-chair of the Legislative Ethics Committee.

There were limited leadership changes across the broader transportation policy and budget area. Senator Laura Richardson (D-San Pedro, Los Angeles County), who previously served in both the Assembly and in Congress, is the new chair of Senate Budget Subcommittee No. 5, which includes transportation in its jurisdiction. Assemblymember Steve Bennett (D-Ventura) retained his chairmanship of Assembly Budget Subcommittee No. 4 on Climate Crisis, Resources, Energy and Transportation, while Senator Dave Cortese (D-San Jose) continues as Chair of the Senate Transportation Committee, and Assemblymember Lori Wilson (D-Suisun) continues as the chair of the corresponding Assembly policy committee.

Bills of Interest to SMCTA

AB 259 (Rubio) Brown Act – Remote Participation

Assemblymember Rubio introduced AB 259 on January 16. This bill eliminates the 2026 sunset date from her prior legislation AB 2449 (2022), which allowed the legislative bodies of local agencies to meet via teleconference provided that a quorum of the body is present in person and other requirements are met. AB 259 also indefinitely extends the authority for remote meetings during emergency circumstances and for allowing a member of a legislative body to participate remotely without providing at least 72 hours of advance notice due to emergency circumstances.

In addition to AB 259, Politico Group anticipates that local government groups will return to the Legislature with additional sponsored legislation related to the Brown Act and remote participation in 2025, including broader authorization for remote meetings of advisory bodies. It is unclear whether changes in the membership of relevant legislative policy committees, including the Senate Local Government Committee, will allow for a different outcome than prior efforts, which stalled when stakeholders and policy committees could not reach agreement on amendments.

SB 63 (Wiener) San Francisco Bay Area - Local Transportation Revenue Measure

On January 9, Senator Wiener introduced a non-substantive intent bill related to a potential Bay Area regional funding measure. SB 63 expresses the Legislature's intent to adopt a legislation authorizing a revenue measure to invest in transportation and public transit. The full text of the measure reads as follows:

It is the intent of the Legislature to enact legislation authorizing a revenue measure to invest in transportation, including to, at a minimum, sustain and improve public transportation, in the San Francisco Bay area. It is the further intent of the Legislature that the details of this authorizing legislation, including the specific geography of the measure, be based on continued stakeholder engagement and consensus building, building off of a robust regional engagement process led by the Metropolitan Transportation Commission in 2024.

Bills must be in print for at least 30 days before they can be further amended or heard in a legislative policy committee. Introducing an intent bill, such as SB 63, gives legislators additional time to work on language prior to the bill being referred to a committee for a hearing. On a practical basis, Senator Wiener will have until April to amend the bill, which will likely require hearings in the Transportation Committee and at least one other policy committee. Policy committees have a May 2 deadline to hear and approve all legislation introduced in the current session.

SB 71 (Wiener) CEQA Exemption for Transit and Active Transportation Projects – WATCH

Senator Wiener has introduced a bill to eliminate the sunset date from his prior CEQA exemption bill for clean transportation projects, including active transportation improvements located within public road

rights or way. As introduced on January 16, SB 71 deletes the 2030 sunset date for SB 922 (Wiener, 2022), which created a CEQA exemption for a variety of active transportation and public transit projects and plans. This bill also expands the CEQA exemption to include plans to redesign or modify transit service networks, install transit stop shelters and lighting, and to encompass transit maintenance projects.

Federal Update San Mateo County Transportation Authority January 23, 2025

Congress

Congress started the 119th session earlier this month but moved slowly waiting for the new President's inauguration on January 20. Republicans now control the House, Senate, and White House for the first time since 2016. The Senate has been conducting confirmation hearings in committees and lining up floor votes for cabinet level nominees.

Department of Transportation (DOT) nominee Sean Duffy was approved in the Senate Commerce committee unanimously and will likely be passed on the floor this week. The full Senate has approved Marco Rubio for State and has scheduled votes on other nominees such as Pete Hegseth (Department of Defense), Kristi Noem (Department of Homeland Security) and Scott Bessent (Department of Treasury). Others will follow next week.

While the Senate continues to process nominations, the House has been embroiled in a wide-ranging discussion about how to set up the process to consider reconciliation bills. Speaker Johnson – and the President – appear to support passing one large reconciliation package; the Senate, on the other hand, could be planning to do up to three separate reconciliation bills.

These discussions are significant because they will define the pace and scope of the next hundred days and, more importantly, will force the House and Senate majorities to prioritize what items will be considered in the reconciliation package.

Administration

Upon his swearing in, the President issued a barrage of executive orders covering everything from energy independence to ending birthright citizenship. Several of these executive orders have already drawn lawsuits and are headed for the courts.

One section of one of the new executive orders relating to ending the "Green New Deal", also had language restricting disbursement of funds from accounts funded by Infrastructure Investment and Jobs Act (IIJA) or the Inflation Reduction Act (IRA). If put into effect as written, this language would have halted funding for all DOT projects. After bipartisan pushback from the Hill, the Office of Management and Budget later clarified this language as only applying to funding used to address climate change mitigation and incentives for electric vehicle charging.

As the new administration continues to issue policy changes and executive orders in the coming months, we will work closely with staff to monitor any immediate and long-term impacts those policy changes could have to TA projects and priorities.

Reauthorization

The current surface transportation authorization bill – IIJA – runs through September 30, 2026. Last week, the House Transportation and Infrastructure (T&I) Committee started hearings on the reauthorization process. These hearings are very early and at this point, the hearings have been very high-level, stressing the need to re-authorize the programs

Kadesh & Associates, LLC 230 Second Street, SE Washington, DC 20003 Ph 202.547.8800 and to set aside funding next year to cover the cost of the legislation. Actual legislation and bill text won't begin to be developed until late 2025/early 2026.

Two factors are leading to this early consideration: 1) Committee Chairman Graves was granted a two-year extension to remain as chairman of the committee and wants to complete this bill during his tenure; and, 2) through the reconciliation discussions mentioned above, House Republicans are laying out a funding blueprint for the next two years. We have already started working with TA staff to develop our reauthorization strategy. The Senate Environment and Public Works Committee (EPW), which has primary jurisdiction over highway programs, has not started its process and is not expected to start until much later this year or early next year. We will monitor this closely.

Appropriations and Government Funding

While the government continues to be funded by a continuing resolution that expires on March 14, the outlook for completing the FY 2025 appropriations bills continues to be unclear. Appropriators will work to finish those bills, but several issues remain open. Of these, the most difficult issue will be the lack of agreement on top line dollar amounts. As previously reported, the House and Senate are about \$90 billion apart in terms of the FY 2025 spending levels.

San Mateo County Transportation Authority Staff Report

| To: | Board of Directors | |
|----------|--|--|
| Through: | April Chan, Executive Director | |
| From: | Joan Cassman, General Counsel | |
| Subject: | Adoption of the Community Advisory Committee Rules of Procedur | |

<u>Action</u>

Staff recommends the Board of Directors (Board):

- 1. Ratify the revised San Mateo County Transportation Authority (TA) Community Advisory Committee (CAC) Rules of Procedure; and
- 2. Reaffirm the primary role of the CAC is to provide a broad spectrum of community input on the Board agenda; and
- 3. Provide the CAC with the ability to discuss items that are not included on the Board agenda, subject to limitations described below.

Significance

In July 2024, the Board updated its Rules of Procedure to reflect current best practices for public boards, covering topics including, but not limited to, the conduct of meetings; the taking of minutes; Board/Public Communications, and changing the name of the Citizens Advisory Committee to the Community Advisory Committee. Following adoption of the Board's new Rules of Procedure, staff, Legal Counsel and an ad hoc committee of the CAC reviewed the CAC's Rules of Procedure to bring them into alignment with the new Board Rules. The attached proposed CAC Rules of Procedure would apply expectations and protocols to the CAC that are consistent with those applicable to the Board, and also establish procedures for election of CAC officers. The updated CAC Rules of Procedure were discussed by the CAC in October 2024, revised and approved for adoption by the TA Board by a unanimous vote in January 2025. Staff met with the Board Chair and Vice Chair to review the CAC's proposal and minor revisions and clarifications to the CAC Rules of Procedure have been made to address their feedback.

When the CAC approved the draft CAC Rules of Procedure, it also requested the ability to have some authority to set its agendas. The long-standing practice has been for the CAC to provide input on the Board's agenda, based on a broad spectrum of perspectives from the CAC. However, several members of the CAC indicated a desire to discuss items of interest to the CAC that are not on the TA Board agenda. As part of the discussion related to the Rules of Procedure, the CAC held a separate vote at the January 2025 meeting requesting the Board grant them it authority to discuss items that are not included on the Board agenda, from time-to-time, throughout the year.

After discussions with General Counsel and the Board Chair and Vice Chair, staff recommends providing limited ability for the CAC to place discussion items on its meeting agendas as follows:

- 1. The CAC may discuss items not on the Board's agenda no more than two times per year and for no more than 1 hour at each time.
- 2. Any items presented to the CAC must be directly related to TA business.
- 3. Items proposed for discussion must be of interest to the CAC as a whole and added to the agenda by a majority vote of the CAC.
- 4. There will be no expenditure of TA funds or staff time, except for posting of agenda items and preparation of meeting minutes.
- 5. CAC members are solely responsible for preparation of related agenda materials, presentations and/or invitations to external speakers.

Budget Impact

There is no budget impact associated with this item.

Background

The CAC, which was created with implementation of the TA's original Measure A, adopted by the voters of San Mateo County in 1988, is subject to a very basic set of basic Rules of Procedure that no longer reflect best practices for advisory groups of this nature. The rules have been updated to be consistent with the expectations and protocols now commonplace in the public sector.

Resolution No. 2025 -

Board of Directors, San Mateo County Transportation Authority State of California

* * *

Amending the Rules of Procedure for the San Mateo County Transportation Authority Community Advisory Committee

Whereas, on July 11, 2024, the San Mateo County Transportation Authority (TA) Board of Directors (Board) updated its Rules of Procedures to reflect current best practices for public boards, covering topics including, but not limited to, the conduct of meetings, the taking of minutes, and Board/Public Communications, and changing the name of the Citizens Advisory Committee to the Community Advisory Committee (CAC); and

Whereas, following adoption of the Board's new Rules of Procedure, staff, Legal Counsel and an ad hoc committee of the CAC reviewed the CAC's Rules of Procedure to bring them into alignment with the new Board Rules and also establish procedures for election of CAC officers; and

Whereas, the CAC discussed the proposed revisions at its October 2024 and January 2025 meetings and approved the revised CAC Rules of Procedure for adoption by the TA Board by a unanimous vote in January 2025; and

Whereas, in addition, in accordance with Measure A, the CAC has historically provided input on the Board's agenda, and the CAC has now requested that the Board grant it the authority to discuss items that are not included on the Board agenda from time to time throughout the year; and

Whereas, staff met with the Board Chair and Vice Chair to review the CAC's proposal, revised the CAC Rules of Procedure to address their feedback, and now recommends that the Board adopt the new CAC Rules of Procedure, as set forth in Attachment A, and provide the CAC with the ability to place discussion items on its meeting agendas that are not also included on the next TA Board agenda, subject to limitations described below.

Now, Therefore, Be It Resolved that the Board of Directors of the San Mateo County

Transportation Authority hereby:

- 1. Ratifies the revised Community Advisory Committee Rules of Procedure, as set forth in Attachment A;
- 2. Reaffirms that the primary role of the CAC is to provide a broad spectrum of community input on the TA Board agenda; and
- 3. Authorizes the CAC to discuss items that are not included on the Board agenda solely in accordance with the following criteria:
 - a. The CAC may discuss items not on the Board's agenda no more than two times per year and for no more than 1 hour at each time;
 - b. Any items presented to the CAC must be directly related to TA business;
 - c. Items proposed for discussion must be of interest to the CAC as a whole and added to the agenda by a majority vote of the CAC;
 - d. There will be no expenditure of TA funds or staff time, except for posting of agenda items and preparation of meeting minutes; and
 - e. CAC members are solely responsible for preparation of related agenda materials, presentations and/or invitations to external speakers.

one minute. No written materials may be distributed. In casting votes for Chair and Vice Chair, members of the CAC may consider the candidate's leadership qualities, ability to conduct meetings of the CAC expeditiously and fairly, and willingness to represent and implement positions adopted by the CAC when such positions are at variance with their own political views, as well as any other factors deemed pertinent.

Voting on nominations is to be conducted by roll call in alphabetical order by last name. The Chair will vote last. Each CAC member may only vote for one candidate per position.

If there are more than two nominees for a position, and no nominee receives a majority of the votes, the top two vote-receiving nominees will have a run-off election. In the event of a tie, the CAC will have further debate and then another election. If further debate and an additional election does not resolve the tie, then the tie shall be determined by coin toss. The candidate who is first alphabetically by last name will call the coin.

V.VII. REGULAR MEETINGS

Regular meetings of the CAC shallwill normally be held on the Tuesday preceding the first Thursday of every month at 4:30 pm. in the Auditorium of the San Mateo County Transit District headquarters, located at 1250 San Carlos Avenue, San Carlos, California. <u>The District plans to relocate its administrative building in 2026 to 166 N. Rollins Road in Millbrae, California and when that occurs, the CAC's meetings will be held in the Board Room at that location.</u>

VI. VIII. QUORUM REQUIREMENTS

The majority and/or<u>A</u> quorum of the CAC will be the majority of those currently appointed, provided that the majority vote is not less than seven (7) members.

VII.IX. ATTENDANCE POLICY

1. The Transportation Authority CAC recognizes and understands the occasional need to be absent from a scheduled meeting. However, it is expected that each member attend every meeting to the maximum extent possible. This is particularly important due to the legal requirement that the CAC can take no formal action without the majority of the **members'** (not just those attending) votes.

1. We will assume that a<u>A</u> member <u>has will be assumed to have</u> submitted his or her resignation if, during the

- 2. <u>currenta single calendar year</u> there have been:
 - a) More than three (3) unexcused absences OR
 - b) More than three (3) consecutive absences

communicating with the media on behalf of the CAC or Authority. If a CAC Member receives a media inquiry related to Authority or CAC business, the member should forward that inquiry to the Executive Officer, Transportation Authority for response.

XIII. COMMUNICATION IN PRIVATE CAPACITY

Consistent with Section II of the Authority Board of Directors' Rules of Procedure, when presenting their individual opinions and positions, Committee Members will explicitly state they do not represent the Authority or CAC, nor will they allow the inference that they do. Committee Members should keep in mind that even when they are speaking as private individuals, the audience could nevertheless hear and attribute their comments as a position of the Authority or CAC. If Committee Members send correspondence stating their personal views related to Authority business and use their title as a Committee Member, such correspondence should clearly state that the statements are the view of the sending Committee Member and not the official position of the Authority or CAC. The sending Committee Member should convey a copy of such correspondence to the Executive Officer, Transportation Authority, and/or Authority Secretary, who will circulate it to the other Committee Members and the Authority Board for their information. Committee Members may not use Authority letterhead, the Authority logo or seal, or any functional electronic equivalent thereof.

XIV. ELECTRONIC COMMUNICATIONS

Consistent with Section III of the Authority Board of Directors' Rules of Procedure, to the extent feasible, Committee Members are expected to limit their use of personal electronic devices during public meetings to only those uses necessary to facilitate their participation in such meetings. Examples of necessary uses include review of agenda materials, notes or related information assembled prior to the meeting, or taking notes on information shared during the meeting. If Committee Members receive public or stakeholder input during Committee meetings on matters before the Authority via their personal electronic devices, they are encouraged to disclose such communications for the record of the meeting and for the benefit of the Committee's consideration.

Committee Members understand and agree that by using their personal electronic devices during a public meeting, the information on those devices may become subject to discovery, Public Records Act, or other requests, and they agree to cooperate with the Authority in responding to such requests including through direct access to their devices as necessary in order to allow the Authority to comply with law or court orders or to defend itself in any action.
