Honorable Caltrain Board Members and Staff,

This email is to inform you that new FRA rules allow reduced train horn use in certain Caltrain-applicable scenarios:

<https://www.heraldnews.com/story/business/transportation/2026/09/02/federal-govt-changes-train-horn-safety-rules-could-make-rail-quieter/91567961007/>

<https://www.trains.com/pro/regulatory/fra-publishes-new-rules-as-part-of-deregulatory-effort/>

FRA publishes new rules as part of deregulatory effort

By Trains Staff | August 31, 2026

WASHINGTON — The Federal Railroad Administration today published new rules on a variety of topics — ranging from horn-sounding requirements to virtual training for brake systems — as part of what the agency calls its first comprehensive “deregulatory sprint.”

The 10 rules published today in the Federal Register are among 57 the FRA says are removing redundant requirements and aligning federal standards with current technology, such as allowing electronic document filing.

“When I worked in the private sector, I personally experienced the challenges of navigating complicated rail regulations that did nothing to improve safety and only hurt American rail,” FRA Administrator David Fink said in a statement. “Today, I am proud to announce these critical regulatory changes which will help the industry thrive and ultimately usher in a new Golden Age of Rail.”

The rules published today:

- Clarify that no federal rule requires a locomotive to **sound its horn because of the presence of a passenger station**, leaving a policy on the matter to the discretion of a railroad.
- End the requirement for trains to **use a long-long-short-long pattern to**

sound their horns at grade crossings, allowing a single horn blast after a train has been stopped in close proximity to a crossing.

(*Trains* article continues, detailing some additional rule changes.)

Interestingly, it appears the new rules merely **allow** RRs to choose to eliminate or reduce horn blasts in the specified scenarios.

Kind Regards,
Adrian Brandt

Hello,

Hopefully you're fully aware and working hard to resolve the issue at the Churchill crossing in Palo Alto. Northbound trains make the crossing close for traffic, while the train is still too far away. So the crossing will open for traffic again and within a minute or so will close again.

It results in very dangerous situations, because people and especially teens who go to the nearby high school get impatient. We're waiting for an accident to happen here.

Please fix this problem as soon as possible.

Corianne Gelderloos

Dear Caltrain,

I am a student writing a piece on how in the past 10 years teenagers have become less inclined to get their drivers licenses. I'm also investigating driving alternatives, one being the Caltrain. I was wondering if you could answer some questions regarding the impact of train transportation on teenagers.

Questions:

- How does the Caltrain, in your opinion act as a driving alternative in the lives of teens?
- Does the cost of boarding a train compared with the cost and upkeep of a car affect teens' interest in getting a license?

Thank you, your response would be greatly appreciated, John Ross

Dear Members of the Peninsula Corridor Joint Powers Board and Caltrain Planning Team,

I am writing to submit a formal station name refinement proposal for the San Antonio Caltrain Station in Mountain View.

I propose updating the official station name to San Antonio / Showers Drive.

Rationale for the Proposal:

1. Precision Wayfinding for Riders: While "San Antonio Road" identifies the primary regional arterial corridor, the physical station platforms, bus drop-off points, and pedestrian/cyclist access sit directly on Showers Drive (190 Showers Drive). Adding Showers Drive to the station name gives first-time riders, connecting transit passengers, and rideshare users clear, exact street-level orientation.
2. Alignment with Transit Industry Best Practices: Dual-naming major suburban and urban stations is a proven standard used across Northern California transit agencies (including BART, Muni Metro, and VTA) when a station sits on a local access road adjacent to a major cross-street.
3. Preserving Regional Continuity: The primary "San Antonio" identifier remains intact for regional commuters while resolving minor navigation ambiguity for local transit connections along the San Antonio Center corridor.

Thank you for your time, consideration, and continued work to improve the rider experience across the Peninsula Corridor.

Sincerely,

Gabriel Del Real

More hogwash from Caltrain:

"Everything from special events and looking at our parking to advertising and naming rights, solar and [electric vehicle] charging storage and fiber optic cable leasing ... we need to really push ourselves to think about how to act a little bit more like a business and monetize as many assets as we can."

-- Attributed to Caltrain Chief of Staff Casey Fromson by Alyse DiNapoli in her September 7, 2026 San Mateo Daily Journal article, "Caltrain hopes cost-cutting, non-fare initiatives can close \$75 million annual operating deficit"

1. In a business, revenue covers costs for the primary activity. Leaders and investors know ancillary revenue can't pay the bills, especially long-term.
2. Caltrain stopped being a business in the late 1970s, with the first public operating subsidies. It is now purely a public service, with all capital and two thirds of operations publicly funded.
3. The same primary activity concept applies. Ancillary revenue will never make a material contribution to the cost of regional passenger train service.
4. Caltrain weekday ridership has just reached two thirds of its pre-pandemic peak, while operating costs are significantly higher. (Weekend ridership has fared better, but whether measured daily or annually, weekend ridership remains a small contributor.) If Caltrain wanted to reduce costs without further ridership losses, it would:
 - (a) Cut Gilroy diesel train service. Four weekday round-trips, scheduled to require at least 3 peak-time crews and at least 3 separate trains, currently carry about 400 people.
 - (b) Cut Tamien, which served about 250 people before buses replaced trains due to a bridge maintenance project. People who drive to Tamien could drive on to San Jose Diridon Station instead. Local transit riders have other VTA Light Rail or bus options.
 - (c) Change the timetable to reduce turn-around time without reducing time in-service. (See modeling work done by Richard Mlynarik.)

It's telling that Jackie Speier, who was instrumental in securing federal capital funding for Caltrain, and for whom a locomotive is named, opposed what is now known as Measure RTM. I've lived 30 years in and around the Bay Area without driving. I support the "Connect Bay Area" 14-year sales tax increase but note that more transit service cuts are inevitable long before 14 years unless voters and state legislators follow up with changes in how the Bay Area's 25+ transit agencies are structured and governed, who is in charge, and whether the goal should remain building and buying expensive stuff for its own sake, or serving observed demand efficiently.

When leaders and managers at Caltrain bring up ancillary revenue -- peanuts -- you know they're gearing up for business as usual, with no attention to what drives cost.

Dear Corianne Gelderloos,

Thank you for contacting Caltrain. We understand your concern that the crossing gates activate while northbound trains are still some distance away, reopen briefly, and then activate again as the train approaches. We recognize how this pattern may cause pedestrians, bicyclists, and drivers—particularly students traveling to the nearby high school—to become impatient and take unsafe risks.

Your report was forwarded to the appropriate railroad Operations and Signal teams for urgent review. In the meantime, everyone should continue obeying all crossing signals and never attempt to cross while the gates are lowering or activated.

We appreciate you taking the time to report this matter.

Sincerely,

Your Caltrain BOD Public Support Team

Dear Caltrain Customer Service,

I am writing to follow up regarding Fare Evasion Citation #**54000300**, issued on **October 2, 2025**.

I timely submitted an appeal/administrative review after receiving the citation. However, as of today, the citation has remained in **“Hold”** status for approximately eleven months, and I have not received a final decision on my appeal.

The citation arose when I was a student at De Anza College. I had been issued a student Clipper card through the college and believed that the student transit benefit covered my Caltrain trip. I attempted to tap the card before riding, but it did not work. I explained these circumstances in my original appeal.

I am **not submitting a new appeal through this email**. I am writing to request clarification regarding the status of the administrative review that I already submitted.

Could you please confirm:

1. Whether a decision on my appeal has already been issued or mailed;
2. If no decision has been issued, whether the appeal is still actively pending;
3. Whether the citation will remain on hold with **no late fees, penalties, or collection action** while the appeal is pending; and
4. When I should expect a final determination.

The online citation portal currently continues to show the citation as **“Hold”** with an amount of \$75. I have attached a screenshot of the current status for reference.

Thank you for your assistance. I would appreciate written confirmation of the current status of the citation and appeal.

Best regards,
Hewei Zeng

Dear Jason,

A month or so ago, I contacted you regarding a maintenance issue at the Burlingame Avenue Railroad Station.

Absent feedback, we decided to remove the posts about which we'd inquired, and can perhaps take up this issue at another point in the future.

Far more pressing and concerning right now is the deteriorating condition of the station, itself.

A few years ago, a small group of staff from Caltrain/Samtrans made at least one station visit to assess the condition of the historic building in order to prioritize repairs. Unfortunately, we have never heard the results and conclusions of that visit.

We are particularly concerned about the condition of the woodwork on the building, that in some places has developed gaping wholes and rot. The last time it was painted was close to 20 years ago. The sun beats down very hard, in particular on the side facing Burlingame's downtown, and we wonder how it will fare with another hard winter expected to arrive, soon.

I am sending a few photos taken this morning so that you can see the extent of the damage. We realize funds are in short supply, but even a limited scope of work to simply repair and paint the wooden trim pieces would help prevent more catastrophic damage, at least in the interim.

Please let us know if there is anything we can do on our end to speed this along. Thank you in advance for your attention to this matter.

Sincerely,

Russ Cohen

Dear Counsel and Governing Bodies:

I. Purpose and Update

This notice is given by Jair D. Hernandez, 4P LLC (DBA JAIR 4P LLC), and Ultra Brogito LLC. It **updates and supplements** the formal notice dated **August 1, 2026**. All demands in the August 1, 2026 notice remain in force except as expanded here. Subsequent events include Precinct 2 proceedings through August 10, 2026; Texas DPS, Georgetown, Cedar Park / Williamson County, San Francisco / State of California, and Walnut Creek updates dated September 9, 2026; Colorado activity as of **April 9, 2026**; similar activity in **January 2025**; and activity during visits **before 2025** to Manitou Springs, Boulder, and other Colorado cities.

Conduct began in California in 2018.

Omission of a name does not exclude an entity. Not all violations are listed. **Not all locations of alleged crimes are listed in the table in Section IV.D.**

Appendix A and Appendix B, previously circulated and available at www.4pllc.io, are incorporated by reference. More than 1,500 reports have been filed with federal agencies.

II. Defined Terms (Originated by the Victim)

“Cyber mule” means a person who commits cybercrimes on behalf of superiors or organizers in exchange for an economic or other benefit, including money, drugs, sex, government benefits, housing, immigration status, or similar consideration. The term is a descriptive label originated by the victim. It does not describe methods.

“Donkey botnet” is a term originated by the victim. It means a group of botnets created by cyber mules on behalf of cyberterrorists and other cybercriminals. The term is a descriptive label. It does not describe methods.

III. Alleged Role

It is alleged that the listed cities, counties, utilities, transit agencies, ports, school districts, college districts, housing authorities, and affiliates participated in, enabled, or failed to correct color-of-law misconduct, fraud on courts, insurance and civil-rights fraud, abuse of utility and transit systems, academic sabotage, cyber-mule and donkey-botnet activity, hate crimes, and obstruction of federal law enforcement targeting the victim. Cost and liability were shifted to the victim, 4P LLC, Ultra Brogito LLC, and insurers, including GEICO Policy Number 6064-00-86-56 (December 2021; also 6064008656; term 11/14/2023–04/28/2024, California); GEICO Secure Claim 8723633130000005 (loss date August 16, 2022); Biberk Commercial Auto Policy No. 0045133-01-CA (07/18/2024–07/18/2025); and Hiscox Insurance Company Inc. Policy Number HIUS4569898XB, liability insurance for 4P LLC (07/17/2024–07/17/2025). Related matters include Wells Fargo Disputes 21701947, 21858220, 21858245, and 21878169; Chase Executive Office file Jair Hernandez, ECW250428-06698-R1; City of Los Angeles Claim No. C26-04858; and City of Westlake Village File Number CJP-305505.

It is further alleged that false identity, gender (including false transgender and pregnancy attribution), immigration-status, and criminal-history narratives interfered with federal employment, including Chief, Defense Investments Branch, EOP-OMB-12796917-25-NR-SES, NSA applications 1206339 and 1206213, and FBI application 48834, and with education-related pathways.

IV. Material Facts

A. Courts, housing, and records

Alleged fraud on courts and housing includes DIR RCI-CM-976830; LAHD WE291338; CA vs Hate CVHCY53UJZ; HUD 717228; EEOC Charge 550-2023-00841; and parallel Arizona and Texas matters (North Canyon Case J-0803-CT-202500145; JP 2 Citation C200606521, including August 10, 2026 Precinct 2; JP 5 Cause Nos. B. Utilities, transit, ports, and schools

It is alleged that personnel or systems of SFPUC, SFMTA, BART, Caltrain, Golden Gate Bridge District, EBMUD, MWD, SCPPA, LADWP, Metro, the Ports of Los Angeles and Long Beach, airport authorities, and the listed school and college districts were used to host, recruit, or fail to report cyber-mule and donkey-botnet activity, academic sabotage, and related predicate acts. FERPA- and student-privacy-compliant preservation only is demanded of education records.

C. Third-party harm

It is alleged that the same enterprise caused or contributed to third-party harm, including job loss; motor-vehicle accidents; sexual harassment and sexual assault of men, women, and children; animal abuse; involuntary urination and defecation; failure of high-school, college, and university examinations and courses; and trauma producing physical reactions in multiple body regions, including the genitalia, head, and chest, alleged as sequelae of psychological abuse. Associated actors filed fraudulent insurance, immigration, personal-injury, unemployment, civil-rights, and disability claims. The victim has not filed SSA disability, retirement, or SSI claims.

D. Locations of alleged crimes (table not exhaustive)

It is alleged that cyber-mule activity, donkey-botnet activity, cyberterrorism, and other predicate acts occurred at or were coordinated through the following lodging and related properties. **Not all locations are listed in this table.** Additional properties appear in prior notices.

Dear Mayors, Boards of Supervisors, Superintendents, General Managers, and Legal Departments:

I am the victim of a coordinated multi-state criminal enterprise that has operated since 2018, with the violations originating in Texas in 2024 and significant escalation in Colorado since April 13, 2026. This enterprise has engaged in device hacking, low-audio psychological coercion,

bio-hazard retaliation through the intentional introduction of human and animal waste into rooms and facilities via air conditioning units and ventilation systems, hate crimes, false criminal accusations, sexual harassment, obstruction of communications with federal agencies, voter intimidation, and psychiatric abuse.

Participation and Complicity of the Identified Entities

The governmental entities listed above, their employees, officials, and affiliated entities have participated in or enabled this criminal enterprise. This includes obstructing federal law enforcement investigations, facilitating or failing to correct fraudulent documentation, interfering with the victim's ability to pursue legal claims against the State of Texas and other entities, and enabling ongoing hate crimes, cyber intrusions, environmental violations, and psychiatric abuse.

Not all affiliated Bay Area and Los Angeles Area governmental entities that may be involved or connected to this enterprise are necessarily listed in this notice.

Additional entities may be identified and noticed as further information is developed.

The pattern of conduct previously documented in Texas has been facilitated and extended by networks connected to these entities.

Specific Violations and Applicable Legal Framework

The following predicate acts have been committed or enabled by the criminal enterprise with the participation or complicity of the identified entities. These crimes have been previously reported in FBI Hate Crime Reports, IRS and SEC Whistleblower Reports, and reports submitted to DHS, ICE, U.S. Department of State, Department of War, U.S. Army Counterintelligence, Air Force Office of Special Investigations, and CIA.

Specific violations include:

- Psychiatric abuse as part of the coordinated enterprise.

Not all violations committed by the criminal enterprise and its participants are listed herein. Additional predicate acts and violations continue to be identified and reported to the appropriate federal authorities.

Demand for Action

The identified entities are requested to:

1. Conduct a full internal investigation into all departments, employees, officials, systems, and operations involved in or complicit with the criminal enterprise.
2. Preserve all records, communications, surveillance footage, and documents related to the victim's interactions and reports.
3. Fully cooperate with the U.S. Department of Justice Civil Rights Division, FBI, DHS, ICE, EPA, and other federal agencies.
4. Refer all criminal aspects for prosecution.

Failure to take the actions requested herein will be documented for the record and will support additional civil claims, including treble damages under RICO.

No Precedent Clause Any settlement, payment, resolution, or enforcement action involving any of the identified entities or any affiliated entity shall not create a legal precedent, estoppel, waiver, or limitation on claims, damages, or awards against any other defendants or responsible parties in this matter or in related proceedings. Failure to take appropriate action will be documented and may increase potential exposure. Damages, including interest, will be assessed in court. All prior formal notices and demands previously submitted regarding this criminal enterprise remain in full force and effect.

This submission is made under penalty of perjury. The information contained herein is true and correct to the best of my knowledge. I am prepared to provide additional evidence and documentation upon request.

Best,
Jair

Re: Updated Formal Notice of Alleged Participation and Complicity by the Listed Bay Area and Los Angeles–Area Governmental Entities in a Multi-State Enterprise Involving Color-of-Law Violations, Fraud on Courts, Insurance and Civil-Rights Fraud, Utility and Transit-System

Abuse, Academic Sabotage, Cyber Offenses, Hate Crimes, Obstruction of Federal Law Enforcement, Interference with Federal Employment, and Related Predicate Acts — Superseding and Supplementing the August 1, 2026 Notice — Demand for Immediate Cessation, Record Preservation, Internal Investigation, and Referral

Dear Counsel and Governing Bodies:

I. Purpose and Update

This notice is given by Jair D. Hernandez, 4P LLC (DBA JAIR 4P LLC), and Ultra Brogito LLC. It **updates and supplements** the formal notice dated **August 1, 2026**. All demands in the August 1, 2026 notice remain in force except as expanded here. Subsequent events include Precinct 2 proceedings through August 10, 2026; Texas DPS, Georgetown, Cedar Park / Williamson County, San Francisco / State of California, and Walnut Creek updates dated September 9, 2026; Colorado activity as of **April 9, 2026**; similar activity in **January 2025**; and activity during visits **before 2025** to Manitou Springs, Boulder, and other Colorado cities. Conduct began in California in 2018.

Omission of a name does not exclude an entity. Not all violations are listed. **Not all locations of alleged crimes are listed in the table in Section IV.D.**

Appendix A and Appendix B, previously circulated and available at www.4pllc.io, are incorporated by reference. More than 1,500 reports have been filed with federal agencies.

II. Defined Terms (Originated by the Victim)

“Cyber mule” means a person who commits cybercrimes on behalf of superiors or organizers in exchange for an economic or other benefit, including money, drugs, sex, government benefits, housing, immigration status, or similar consideration. The term is a descriptive label originated by the victim. It does not describe methods.

“Donkey botnet” is a term originated by the victim. It means a group of botnets created by cyber mules on behalf of cyberterrorists and other cybercriminals. The term is a descriptive label. It does not describe methods.

III. Alleged Role

It is alleged that the listed cities, counties, utilities, transit agencies, ports, school districts, college districts, housing authorities, and affiliates participated in, enabled, or failed to correct color-of-law misconduct, fraud on courts, insurance and civil-rights fraud, abuse of utility and transit systems, academic sabotage, cyber-mule and donkey-botnet activity, hate crimes, and obstruction of federal law enforcement targeting the victim. Cost and liability were shifted to

the victim, 4P LLC, Ultra Brogito LLC, and insurers, including GEICO Policy Number 6064-00-86-56 (December 2021; also 6064008656; term 11/14/2023–04/28/2024, California); GEICO Secure Claim 8723633130000005 (loss date August 16, 2022); Biberk Commercial Auto Policy No. 0045133-01-CA (07/18/2024–07/18/2025); and Hiscox Insurance Company Inc. Policy Number HIUS4569898XB, liability insurance for 4P LLC (07/17/2024–07/17/2025). Related matters include Wells Fargo Disputes 21701947, 21858220, 21858245, and 21878169; Chase Executive Office file Jair Hernandez, ECW250428-06698-R1; City of Los Angeles Claim No. C26-04858; and City of Westlake Village File Number CJP-305505.

It is further alleged that false identity, gender (including false transgender and pregnancy attribution), immigration-status, and criminal-history narratives interfered with federal employment, including Chief, Defense Investments Branch, EOP-OMB-12796917-25-NR-SES, NSA applications 1206339 and 1206213, and FBI application 48834, and with education-related pathways.

IV. Material Facts

A. Courts, housing, and records

Alleged fraud on courts and housing includes DIR RCI-CM-976830; LAHD WE291338; CA vs Hate CVHCY53UJZ; HUD 717228; EEOC Charge 550-2023-00841; and parallel Arizona and Texas matters (North Canyon Case J-0803-CT-202500145; JP 2 Citation C200606521, including August 10, 2026 Precinct 2; JP 5 Cause Nos. J5-CR-25-005357, J5-CR-25-005356, J5-CR-25-005342; Texas DPS / OAG Citations TX C 25 3676002 and TX C 3676147). Pre-crime premiums were approximately \$30–\$106 per month.

B. Utilities, transit, ports, and schools

It is alleged that personnel or systems of SFPUC, SFMTA, BART, Caltrain, Golden Gate Bridge District, EBMUD, MWD, SCPPA, LADWP, Metro, the Ports of Los Angeles and Long Beach, airport authorities, and the listed school and college districts were used to host, recruit, or fail to report cyber-mule and donkey-botnet activity, academic sabotage, and related predicate acts. FERPA- and student-privacy-compliant preservation only is demanded of education records.

C. Third-party harm

It is alleged that the same enterprise caused or contributed to third-party harm, including job loss; motor-vehicle accidents; sexual harassment and sexual assault of men, women, and children; animal abuse; involuntary urination and defecation; failure of high-school, college, and university examinations and courses; and trauma producing physical reactions in multiple body regions, including the genitalia, head, and chest, alleged as sequelae of psychological

abuse. Associated actors filed fraudulent insurance, immigration, personal-injury, unemployment, civil-rights, and disability claims. The victim has not filed SSA disability, retirement, or SSI claims.

D. Locations of alleged crimes (table not exhaustive)

It is alleged that cyber-mule activity, donkey-botnet activity, cyberterrorism, and other predicate acts occurred at or were coordinated through the following lodging and related properties. **Not all locations are listed in this table.** Additional properties appear in prior notices.

Employees, Officials, and Affiliated Entities in a Multi-State Criminal Enterprise Involving Bio-Hazard Retaliation, Hate Crimes, Fraud on Courts, Obstruction of Federal Law Enforcement, Color of Law Violations, Device Hacking, Psychiatric Abuse, and Related Predicate Acts – Previously Reported in FBI Hate Crime Reports, IRS/SEC Whistleblower Reports, and Reports to DHS, ICE, State Department, Department of War, U.S. Army Counterintelligence, Air Force Office of Special Investigations, and CIA – Demand for Immediate Investigation, Record Preservation, and Full Cooperation with Federal Authorities

Dear Mayors, Boards of Supervisors, Superintendents, General Managers, and Legal Departments:

I am the victim of a coordinated multi-state criminal enterprise that has operated since 2018, with the violations originating in Texas in 2024 and significant escalation in Colorado since April 13, 2026. This enterprise has engaged in device hacking, low-audio psychological coercion, bio-hazard retaliation through the intentional introduction of human and animal waste into rooms and facilities via air conditioning units and ventilation systems, hate crimes, false criminal accusations, sexual harassment, obstruction of communications with federal agencies, voter intimidation, and psychiatric abuse.

Participation and Complicity of the Identified Entities

The governmental entities listed above, their employees, officials, and affiliated entities have participated in or enabled this criminal enterprise. This includes obstructing federal law enforcement investigations, facilitating or failing to correct fraudulent documentation, interfering with the victim's ability to pursue legal claims against the State of Texas and other entities, and enabling ongoing hate crimes, cyber intrusions, environmental violations, and psychiatric abuse.

Not all affiliated Bay Area and Los Angeles Area governmental entities that may be involved or connected to this enterprise are necessarily listed in this notice.

Additional entities may be identified and noticed as further information is developed.

The pattern of conduct previously documented in Texas has been facilitated and extended by networks connected to these entities.

Specific Violations and Applicable Legal Framework

The following predicate acts have been committed or enabled by the criminal enterprise with the participation or complicity of the identified entities. These crimes have been previously reported in FBI Hate Crime Reports, IRS and SEC Whistleblower Reports, and reports submitted to DHS, ICE, U.S. Department of State, Department of War, U.S. Army

Counterintelligence, Air Force Office of Special Investigations, and CIA.

Specific violations include:

- **RICO and Conspiracy:** Pattern of racketeering activity in violation of 18 U.S.C. § 1962; conspiracy to commit offenses against the United States in violation of 18 U.S.C. § 371. See *Rotella v. Wood*, 528 U.S. 549 (2000).
- **Conspiracy Against Rights and Color of Law:** 18 U.S.C. § 241 and 18 U.S.C. § 242.
- **Computer Fraud and Abuse:** 18 U.S.C. § 1030.
- **Obstruction of Justice and Witness Tampering:** 18 U.S.C. § 1505 and 18 U.S.C. § 1512.
- **Hate Crimes:** 18 U.S.C. § 245 and 18 U.S.C. § 249; 42 U.S.C. § 2000d (Title VI).
- **Bio-hazard Retaliation and Environmental Crimes:** Resource Conservation and Recovery Act (RCRA), 42 U.S.C. § 6901 et seq., and Clean Air Act, 42 U.S.C. § 7401 et seq.
- **Theft of Trade Secrets and Economic Espionage:** 18 U.S.C. §§ 1831–1832.
- **Fraud on the Court** across multiple jurisdictions.
- **Fruit of the Poisonous Tree:** *Wong Sun v. United States*, 371 U.S. 471 (1963) and progeny.
- **Institutional Liability:** *Monell v. Department of Social Services*, 436 U.S. 658 (1978).
- Psychiatric abuse as part of the coordinated enterprise.

Not all violations committed by the criminal enterprise and its participants are listed herein. Additional predicate acts and violations continue to be identified and reported to the appropriate federal authorities.

Demand for Action

The identified entities are requested to:

1. Conduct a full internal investigation into all departments, employees, officials, systems, and operations involved in or complicit with the criminal enterprise.
2. Preserve all records, communications, surveillance footage, and documents related to the victim's interactions and reports.
3. Fully cooperate with the U.S. Department of Justice Civil Rights Division, FBI, DHS, ICE, EPA, and other federal agencies.
4. Refer all criminal aspects for prosecution.

Failure to take the actions requested herein will be documented for the record and will support additional civil claims, including treble damages under RICO.

No Precedent Clause Any settlement, payment, resolution, or enforcement action involving any of the identified entities or any affiliated entity shall not create a legal precedent, estoppel, waiver, or limitation on claims, damages, or awards against any other defendants or responsible parties in this matter or in related proceedings. Failure to take appropriate action will be documented and may increase potential exposure. Damages, including interest, will be assessed in court. All prior formal notices and demands previously submitted regarding this criminal enterprise remain in full force and effect.

This submission is made under penalty of perjury. The information contained herein is true and correct to the best of my knowledge. I am prepared to provide additional evidence and documentation upon request.

Best,
Jair

Hi Mr. Cohen,

Thanks very much for reaching out. I appreciate and recognize your concern – the attached images are helpful to see. I apologize that we did not follow up with you regarding your previous email about the posts at Burlingame station.

Regarding these items, I'll have to defer to @Scot Sidler, Director II, Right-of-Way Maintenance, and @Rick Peredia, Manager, Stations & Communications Maintenance, for any additional information from here, as they'll be the experts on everything station-related.

Hope you're staying cool this week – it has certainly been a warm one all around.

All the best,
Jason

Dear Jason,

A month or so ago, I contacted you regarding a maintenance issue at the Burlingame Avenue Railroad Station.

Absent feedback, we decided to remove the posts about which we'd inquired, and can perhaps take up this issue at another point in the future.

Far more pressing and concerning right now is the deteriorating condition of the station, itself.

A few years ago, a small group of staff from Caltrain/Samtrans made at least one station visit to assess the condition of the historic building in order to prioritize repairs. Unfortunately, we have never heard the results and conclusions of that visit.

We are particularly concerned about the condition of the woodwork on the building, that in some places has developed gaping wholes and rot. The last time it was painted was close to 20 years ago. The sun beats down very hard, in particular on the side facing Burlingame's downtown, and we wonder how it will fare with another hard winter expected to arrive, soon.

I am sending a few photos taken this morning so that you can see the extent of the damage. We realize funds are in short supply, but even a limited scope of work to simply repair and paint the wooden trim pieces would help prevent more catastrophic damage, at least in the interim.

Please let us know if there is anything we can do on our end to speed this along. Thank you in advance for your attention to this matter.

Sincerely,

Russ Cohen
